OUR COMPANY

The philosophy behind our production is founded on the achievement of one main objective: foreseeing the needs of the market to create new products which make use of the latest advances in technology.

For Abrasivi Adria this means being in a position to offer customers the highly efficient service they are looking for, with the guarantee of lasting reliability and high standards of quality.

For this reason, over the years, we have assembled an international team of highly skilled in-house trained engineers who operate efficiently on the main world markets.

In line with this commitment, our chemical laboratories are engaged in on-going research and are constantly striving to provide innovative, eco-friendly solutions through the use of low environmental impact raw materials.

In order to offer a great technological know-how in constant evolution, Abrasivi Adria offers with this new catalogue a complete guide to discover a huge production program to satisfy every request of articles use in the working and installation of natural and agglomerated stones, granites and porcelain gres surfaces.

Our engineers and sales team will be happy to answer all your questions and advise you on the best use of our products.

03590402 FRANKFURT METAL DIAMOND SECTORS - M/G/AQ

Diamond segments type Frankfurt Verona with 8 or 12 teeth for polishing. Grit sizes A0 (16), A21 (24), A2 (36), A3 (46), A4 (60), A5 (80), A6 (120).

00525003 FRANKFURT VERONA SECTORS IN MAGNESITE - M/G/AQ

Magnesite-based binder sectors type Frankfurt in silicon carbide. Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 180 - 220 - 280 - 320.

00527003 FRANKFURT VERONA EXPRESS SYNTHETIC SECTORS WITH PHENOLIC BINDER - M/G/AQ

Express phenolic synthetic bond sectors Frankfurt Verona type in silicon carbide. Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 180 - 220 - 280 - 320.

00531034 FRANKFURT VERONA SYNTHETIC SECTORS POLYESTER WITH SPHERES - M

Polyester synthetic bond sectors "C P" Frankfurt Verona type with spheres in silicon carbide. Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 120 - 180 - 220 - 280 - 320.

00533005 FRANKFURT VERONA SYNTHETIC SECTORS POLYESTER - M

Polyester synthetic bond sectors Frankfurt Verona type in silicon carbide. Grit sizes 300 - 3/4 - 400 - 600 - 800 - 1000 - 3000 - 5000.

00513001 SYNTHETIC POLYESTER TANGENTIAL SECTORS MM 140 - M

Polyester synthetic bond tangential sectors mm 140 in silicon carbide. Grit sizes 320 - 3/4 - 400 - 600 - 800 - 1000 - 1200 - 1500.

00130001 FRANKFURT ADRIALUX DIAMOND LOW-PROFILE - M/G/AQ/AM

Synthetic bond sectors Adrialux Frankfurt Verona lowered model (H. 14 mm). Grit sizes 40 - 60 - 80 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00130000 FRANKFURT ADRIALUX DIAMOND SECTORS HIGH - M/G/AQ/AM

Synthetic bond sectors Adrialux Frankfurt Verona high model (H. 33 mm). Grit sizes 40 - 60 - 80 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00130195 FRANKFURT ADRIALUX DIAMOND SECTORS CHECKERED PATTERNS - M/G/AQ/AM

Synthetic Frankfurt adrialux diamond sectors checkered patterns Grit sizes 40 - 60 - 80 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00535005	"5 EXTRA" FRANKFURT PRESSED POLISHING SECTORS - M
	5 extra polishing sectors type Frankfurt pressed. Available in different hardnesses.
00535077	"5 EXTRA" SYNTHETIC FRANKFURT POLISHING SECTORS - M/AM
	5 extra polishing sectors type Frankfurt synthetic. Available in different hardnesses.
00517001	TANGENTIAL SECTORS MM 140 POLISHING 5 EXTRA - M
	5 extra polishing tangential sectors mm 140 pressed. Available in different hardnesses.
00537003	FRANKFURT VERONA CLEANER SECTORS - M
	Synthetic bond sectors type Frankfurt Verona "cleaner bricks". Available in different hardnesses.
03537017	FRANKFURT FULL-SHAPED CLEANERS SECTORS M
	Synthetic bond sectors type Frankfurt Verona full-shaped cleaners. Available in different hardnesses.
00541001	FRANKFURT CLEANING BRUSHES M/G
	Nylon Frankfurt cleaning brushes (wire thickness 1.2 mm).
00541005	FRANKFURT FELTS CLEANER SECTORS - M
	Merino Wool cleaner felts type Frankfurt.
00137020	ADRIALAP FRANKFURT DIAMOND SECTORS - M/G
	Diamond Frankfurt Adrialap sectors for honed surfaces.
00543001	FRANKFURT FELTS FOR HONED SURFACES - M/G/AQ
	Frankfurt felt bricks for honed surfaces, available in green (fine honed surface) and brown (coarse honed surface).
01510001	FRANKFURT PLASTIC HOLDERS
	Plastic holders for installation of Frankfurt abrasives.
01510005	PLASTIC HOLDERS RIGHT AND/OR LEFT FOR FRANKFURT ABRASIVES
	Right and/or left plastic holders for Frankfurt abrasives.
01510010	ALUMINIUM HOLDERS RIGHT AND/OR LEFT FOR FRANKFURT ABRASIVES
	Right and/or left aluminium holders for Frankfurt abrasives.

03586105 METAL DIAMOND SATELLITES G/AQ

Metal diamond satellites diameter 150 mm with threaded connection M 45. Grit sizes 36 - 40 - 50 - 60.

03588001 METAL TANGENTIAL DIAMOND SECTORS - G/AQ

Metal diamond tangential sectors mm 130.

Available in grit sizes 30/40 - 40/50 - 50/60 - 60/70 - 80/100 - 100/120 - 120/140 - 140/170 - 170/200 - 200/300.

03588009 ROUNDED METAL TANGENTIAL DIAMOND SECTORS - G/AQ

Rounded metal diamond tangential sectors mm 130, designed to minimise any risks of scratches, generated by the tool tips or edges, which may form during processing.

Grit sizes 30/40 - 40/50 - 50/60 - 60/70 - 80/100 - 100/120 - 120/140 - 140/170 - 170/200 - 200/300.

03584001 DIAMOND ROLLERS TYPE SP 6 - G/AQ

Metal diamond rollers diameter mm 150 x h mm 90. Available in grit sizes 1 - 2 - 3.

00501001 MAGNESITE TANGENTIAL SECTORS MM 130 WITH PEDRINI HOLDER - G/AQ

Magnesite tangential sectors mm 130 with Pedrini holder

Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500.

00507001 MAGNESITE TANGENTIAL SECTORS MM 140 - G/AQ

Magnesite tangential sectors mm 140

Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500.

00519001 MAGNESITE TANGENTIAL SECTORS MM 170 WITH PEDRINI HOLDER - G/AQ

Magnesite tangential sectors mm 170 with Pedrini holder

Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500.

00509001 EXPRESS PHENOLIC BOND SYNTHETIC TANGENTIAL SECTORS MM 140 - M/G/AQ

Express synthetic phenolic bond tangential sectors mm 140 Grit sizes 16 - 24 - 36 - 46 - 60 - 80 - 100 - 120 - 180 - 220 - 280 - 320.

00509115 EXPRESS SYNTHETIC PHENOLIC BOND TANGENTIAL SECTORS MM 140 FOR REMOVING RESIN - M/G/AQ

Express synthetic phenolic bond tangential sectors mm 140 for removing resin. Grit sizes Q1 - S1 - Q2 - S2.

00511007 CP POLYESTER SYNTHETIC TANGENTIAL SECTORS MM 140 WITH SPHERES - M/G

Polyester synthetic sectors, 140 mm in size, model "C.P." (with spheres). Grit sizes 46 - 60 - 80 - 120 - 150 - 180 - 220 - 280 - 320.

00101003 DIAMOND LOW-PROFILE ADRIALUX TANGENTIAL SECTORS MM 140 - M/G

Adrialux synthetic bond low-profile diamond tangential sectors, 140 mm in size. Grit sizes 40 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 1800 - 2000 - 2200 - 2600.

00101500 DIAMOND HIGH-PROFILE ADRIALUX TANGENTIAL SECTORS MM 140 FOR REMOVING RESIN - M/G

Adrialux synthetic bond high-profile diamond tangential sectors, 140 mm in size, designed specifically to remove epoxy systems from granite. Grit sizes 1 - 2 - 3 - 4 - 5 - 6.

00101104 DIAMOND HIGH-PROFILE ADRIALUX TANGENTIAL SECTORS MM 140 - M/G

Adrialux synthetic bond high-profile diamond tangential sectors 140 mm. Grit sizes 40 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 1800 - 2000 - 2200 - 2600.

00101294 DIAMOND HIGH-PROFILE ADRIALUX TANGENTIAL SECTORS MM 170 - M/G

Adrialux synthetic bond diamond tangential sectors 170 mm. Grit sizes 40 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 1800 - 2000 - 2200 - 2600.

00107010

00105001 TANGENTIAL SECTORS MM 150 LOW-PROFILE ADRIALUX FOR QUARTZ AGGLOMERATES - AQ

Adrialux synthetic bond low-profile diamond polishing tangential sectors 150 mm. Grit sizes 100 - 120 - 150 - 180 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00105270 TANGENTIAL SECTORS MM 167 ADRIALUX LOW-PROFILE PER QUARTZ AGGLOMERATES - AQ

Adrialux synthetic bond low-profile diamond polishing tangential sectors 167 mm. Grit sizes 100 - 120 - 150 - 180 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00105401 TANGENTIAL SECTORS MM 167 ADRIALUX HIGH-PROFILE FOR QUARTZ AGGLOMERATES - AQ

Adrialux synthetic bond high-profile diamond polishing tangential sectors 167 mm low-profile model. Grit sizes 100 - 120 - 150 - 180 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 6000.

00543007 TANGENTIAL FELTS MM 140 FOR HONED SURFACES -M/G/AQ

Tangential felt bricks mm 140 for honed surfaces, available in green (fine honed surface) and brown (coarse honed surface).

00107010 ADRIALAP DIAMOND TANGENTIAL SECTORS MM 140 - M/G/AQ

Adrialap tangential diamond sectors mm 130 for grinding.

00515041 POLISHING TANGENTIAL SECTORS MM 140 LOW-PROFILE - G

Polishing synthetic low-profile 140 mm tangential sectors. Available in different types.

00515001 POLISHING TANGENTIAL SECTORS MM 140 HIGH-PROFILE - G

Synthetic tangential sectors mm 140 polishing high-profile. Available in different types.

00505001 HIGH-PROFILE POLISHING TANGENTIAL SECTORS MM 130 WITH PEDRINI HOLDER - G

Synthetic tangential sectors mm 130 polishing high-profile. Available in different types.

00523005 POLISHING TANGENTIAL SECTORS MM 170 LOW-PROFILE - G

Polishing synthetic low-profile 170 mm tangential sectors. Available in different types.

00523001 POLISHING TANGENTIAL SECTORS MM 170 HIGH-PROFILE - G

Synthetic tangential sectors mm 170 high-profile. Available in different types.

03582031 DIAMOND METAL PLATES - M/G

Diamond metal plates with sector Ø250 mm. Grit sizes 40 - 50 - 120.

00545001 MAGNESITE PLATES -M/D/AQ

Magnesite plates Ø mm 250. Grit sizes 16 -24 - 36 - 46 - 60 - 120 - 220 - 320.

00547001 EXPRESS SYHNTHETIC PHENOLIC BOND PLATES - M/G/AQ

Express synthetic plates Ø mm 250.
Grit sizes 16 -24 - 36 - 46 - 60 - 120 - 220 - 320.

00110060 ADRIALUX DIAMOND PLATES WITH SNAIL OR QRS (VELCRO) CONNECTION HOLDER - M/G/AQ/AM

Synthetic bond diamond Adrialux plates with snail or QRS (velcro) connection available in Ø 220 mm.
Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 5000 - 8000.

00110002 ADRIALUX DIAMOND PLATES WITH QRS (VELCRO) CONNECTION - M/G/AQ/AM

Adrialux synthetic bond diamond Adrialux plates with QRS (velcro) connection available in Ø 220 mm and Ø mm 250. Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 5000 - 8000.

00110132 ADRIALUX DIAMOND PLATES WITH MAGNETIC HOLDER - M/G/AQ/AM

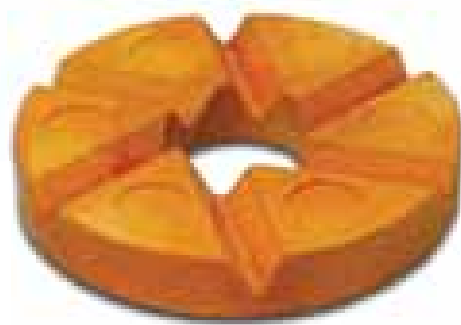

Adrialux synthetic bond diamond plates with magnetic holder available in Ø 220 mm.
Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 5000 - 8000.

Synthetic polyester plates Ø 250 mm. Grit sizes 3/4 - 400 - 600 - 800.

00553011 POLISHING PLATES - G

Polishing plates for granite Ø 250 mm.

00551011 5 EXTRA POLISHING PLATES - M/AM

5 extra polishing plates for marble Ø mm 250.

00557001 EXPRESS MÜNCHEN PHENOLIC BOND SYNTHETIC SECTORS - M/G

Express München synthetic bond sectors. Grit sizes 16 -24 - 36 - 46 - 60 - 120 - 220 - 320.

00555001 MÜNCHEN MAGNESITE SECTORS - M/G

München magnesite bond sectors. Grit sizes 16 -24 - 36 - 46 - 60 - 120 - 220 - 320.

00561001 5 EXTRA MÜNCHEN POLISHING SECTORS - M/AM

5 extra München polishing sectors with plastic holder.

00559001 MÜNCHEN SYNTHETIC POLYESTER SECTORS - M

München polyester sectors. Grit sizes 3/4 - 400 - 600 - 800.

00563001 MÜNCHEN POLISHING SECTORS - G

München polishing sectors for granite.

Metal bond diamond floor smoothers. Grit sizes 0 - 1 - 2 - 3.

03592305 METAL BOND DIAMOND FLOOR SMOOTHERS FOR CEMENT-BONDED MARBLE AGGLOMERATES (TERRACE) - T

Metal bond diamond floor smoothers. Grit sizes 0 - 1 - 2 - 3.

03592005 METAL BOND DIAMOND FLOOR SMOOTHERS FOR GRANITE - G

Metal bond diamond floor smoothers. Grit sizes 0 - 1 - 2 - 3.

03592205 METAL BOND DIAMOND FLOOR SMOOTHERS FOR PORPHYRY - P

Metal bond diamond floor smoothers. Grit sizes 0 - 1 - 2 - 3.

00565001 MAGNESITE PRISMATIC SEGMENTS - M/T

Magnesite bond prismatic segments. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 200 - 300.

00566001 EXPRESS SYNTHETIC PHENOLIC BOND PRISMATIC SEGMENTS - M/T

Express synthetic bond prismatic segments. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 200 - 300.

00567001 ALUMINOUS CEMENT PRISMATIC SEGMENTS - M

Aluminous cement bond prismatic segments Grit sizes 36 - 60 - 120.

00569001 POLYESTER SYNTHETIC POLYESTER SEGMENTS - M/T

Polyester synthetic bond prismatic segments Grit sizes 2/3 - 3/4 - 400 - 600 - 800.

00120001 ADRIALUX DIAMOND MAGNETIZED PRISMATIC SEGMENTS - M/G/T/P

Adrialux prismatic magnetized synthetic bond diamond segments in 4 sectors. Grit sizes 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1500 - 3000 - 5000.

00571001 5 EXTRA PRISMATIC POLISHING SEGMENTS - M

5 extra prismatic polishing segments.

00577001 MAGNESITE WHEELS MM 100 WITH TERZAGO FITTING - G/P

Magnesite wheels with Terzag fitting diameter mm 100. Grit sizes 16 - 24 - 36 - 60 - 120 - 220 - 320 - 400 - 600 - 800 - 1000 - 1200.

00125200 ADRIALUX HIGH-PROFILE DIAMOND WHEELS MM 100 WITH TERZAGO FITTING - G/P

Adrialux synthetic bond diamond wheels with Terzag fitting 100 mm diameter. Grit sizes 60 - 80 - 120 - 150 - 220 - 320 - 400 - 600 - 800 - 1000 - 1500 - 3000 - 5000.

	Polishing wheels mm 100 with Terzago fitting
00573001	MAGNESITE WHEELS MM 100 WITH SCREW FITTING - G/P
	Magnesite honing wheels with screw fitting diameter mm 100. Grit sizes 16 - 24 - 36 - 60 - 120 - 220 - 320 - 400 - 600 - 800 - 1000 - 1200.
00125065	ADRIALUX HIGH PROFILE HONING WHEELS MM 100 WITH SCREW FITTING - G/P
	Adrialux synthetic bond diamond honing wheels with screw coupling 100 mm diameter. Grit sizes 60 - 80 - 120 - 150 - 220 - 320 - 400 - 600 - 800 - 1000 - 1500 - 3000 - 5000.
00575001	POLISHING WHEELS MM 100 WITH SCREW FITTING - G/P
	Polishing wheels mm 100 with screw fitting.
00588006	DARK GRANITE POLISHING POWDER TYPE A - G
	Type A polishing powder for polishing dark granites.
00588012	LIGHT GRANITE POLISHING POWDER - TYPE B
	Type B polishing powder for polishing light granites.
00588013	TIN OXIDE - G
	99.9% pure tin oxide polishing powder to obtain the best polishing for granite.
00588031	OXALIC ACID CRYSTALS - M
	Oxalic acid in crystal form for polishing natural and agglomerate marble, stone and onyx.
00588037	OXALIC ACID POWDER - M
	Oxalic acid polishing powder for polishing natural and agglomerate marble, stone and onyx.
00588045	ACETOSELLA SALT - M
	Acetosella salt in fine or medium crystals for polishing natural and agglomerate marble, stone and onyx.
00588054	5/B YELLOW POLISHING POWDER - M
	5/B polishing powder for machine- or hand-polishing of natural and agglomerate marble, stone and onyx.

00591301 STAR-SHAPED MAGNESITE WHEELS FOR STRAIGHT EDGES - G/AQ

Star-shaped, snail lock magnesite polishing wheels 130 mm and 150 mm diameter for straight edges. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 220 - 320 - 400 - 600 - 800 - 1000 - 1200.

00591401 3-SEGMENT MAGNESITE POLISHING WHEELS FOR STRAIGHT EDGES - G/AQ

3-segment snail lock magnesite polishing wheels 130 mm and 150 mm diameter for straight edges. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 220 - 320 - 400 - 600 - 800 - 1000 - 1200.

00591101 MAGNESITE POLISHING WHEELS HOLE MM 50 FOR STRAIGHT EDGES - M/G

Snail lock magnesite polishing wheels, available in 130 mm and 150 mm diameter, for honing and pre-polishing of straight edges on granite and marble (up to grit size 320). Inner hexagonal hole of the abrasive 50 mm. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 180 - 220 - 280 - 320 - 400 - 600 - 800 - 1000 - 1200.

00592001 EXPRESS PHENOLIC BOND SYNTHETIC POLISHING WHEELS HOLE MM 50 FOR STRAIGHT EDGES - M/G

Express snail lock synthetic polishing wheels, available in 130 mm and 150 mm diameter, for honing and pre-polishing of straight edges on granite and marble (up to grit size 320). Inner hexagonal hole 50mm. Grit sizes 16 - 24 - 36 - 46 - 60 - 120 - 220 - 320.

00593011 POLYESTER SYNTHETIC POLISHING WHEELS HOLE MM 50 FOR STRAIGHT EDGES - M

Synthetic snail lock polishing wheels available in diameters 130 and 150 mm on straight edges. Inner hexagonal hole: 50 mm. Grit sizes 300 - 400 - 600 - 800 - 1000.

00145365 ADRIALUX DIAMOND POLISHING WHEELS 100 WITH GROOVES FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 100 mm diameter for straight edges. They are available with rigid or rubber backing to better conform to the shape of the worked surface. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00145460 ADRIALUX INCLINED DIAMOND POLISHING WHEELS MM 100 WITH GROOVES FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 100 mm diameter for inclined surfaces. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00146620 ADRIALUX DIAMOND POLISHING WHEELS 130 WITH GROOVES FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 130 mm diameter for straight edges. They are available with rigid or rubber backing to better conform to the shape of the worked surface. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00147730 ADRIALUX DIAMOND POLISHING WHEELS 150 WITH GROOVES FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 150 mm diameter with 73 mm inner circular hole in the abrasive for straight edges. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00146410 ADRIALUX 130 MM DIAMOND WHEELS WITH WATER CHANNELS FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail or velcro lock diamond polishing wheels 130 mm diameter with water channels for straight edges. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Inner circular hole: 50 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00147625 ADRIALUX 150 MM DIAMOND WHEELS WITH WATER CHANNELS FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail or velcro lock diamond polishing wheels 150 mm diameter with water channels for straight edges. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Inner circular hole: 50 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00146501 ADRIALUX DOMED POLISHING DISCS MM 130 FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 130 mm diameter for straight edges. Thanks to the inclined edge, they allow a perfect sanding, especially at the beginning and at the end of the processed material. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Inner circular hole 18 mm for the Ø 130 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00147310 ADRIALUX DOMED POLISHING DISCS MM 150 FOR STRAIGHT EDGES - M/G/AQ

Adrialux synthetic bond snail lock diamond polishing wheels 150 mm diameter for straight edges. Thanks to the inclined edge, they allow a perfect sanding, especially at the beginning and at the end of the processed material. They are available with rigid or rubber backing to better conform to the shape of the worked surface. Inner circular hole 18 mm for the Ø 130 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00146519 ADRIALUX DIAMOND POLISHING DISCS FOR STRAIGHT EDGES HOLE 50 - M/G

Adrialux synthetic bond snail lock diamond polishing wheels 130 - 150 mm diameter for straight edges. These wheels are available with rigid or rubber backing to better conform to the shape of the worked surface. Inner circular hole: 50 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1200 - 1500 - 3000 - 5000 - 6000 - 8000.

00597051 STAR-SHAPED POLISHING WHEELS FOR STRAIGHT EDGES - G

Star-shaped snail lock polishing wheels diameter mm 130 and 150 mm.

00597101 3-SEGMENT POLISHING WHEELS FOR STRAIGHT EDGES - G

3-segment snail lock polishing wheels diameter mm 130 and 150 mm.

00597001 POLISHING WHEELS FOR STRAIGHT EDGES - G

Snail lock polishing wheels diameter mm 130 and 150 mm hexagonal hole mm 50.

00596101 5 EXTRA POLISHING WHEELS FOR STRAIGHT EDGES - M

5 extra snail lock polishing wheels diameter mm 100 - mm 130 and mm 150 available in different types. Inner circular hole: 50 mm.

00153215 ADRIALAP DIAMOND WHEELS FOR STRAIGHT EDGES - M/G/AQ

Adrialap snail lock honing wheels, 130 mm and 150 mm diameter, designed to provide an uniform honed finishing, leaving no scratch marks, on natural and agglomerate marble, granite and quartz. Inner circular hole: 50 mm. Grit sizes 120 - 220 - 320 - 400 - 600.

ABRASIVES AND POLISHES

FOR MARBLE, GRANITE AND AGGLOMERATES

00594001 **MAGNESITE HONING WHEELS WITH SMALL HOLE, FOR BULLNOSED EDGES - G/AQ**

Magnesite snail lock wheels, available in 100 - mm 130 and mm 150 diameter, with 25 mm small inner circular hole, on full or half bullnosed profiles. Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1000 - 1200.

00595001 **SYNTHETIC POLYESTER WHEELS FOR BULLNOSED EDGES SMALL HOLE - M/G/AQ**

Synthetic snail lock wheels in 100 - mm 130 and mm 150 diameter, with 25 mm small inner circular hole, on full or half bullnosed profiles. Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200 - 1500.

00595701 **SYNTHETIC POLYESTER WHEELS FOR BULLNOSED EDGES, WITH LARGE HOLE - M/G/AQ**

Synthetic snail lock wheels 150 mm with 75 mm inner circular hole on full or half bullnosed profiles. Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200 - 1500.

00155001 **ADRIALUX LOW-PROFILE DIAMOND WHEELS FOR BULLNOSED EDGES, WITH SMALL HOLE - M/G/AQ**

Adrialux synthetic bond snail lock diamond wheels, available in 100 mm, 130 mm and 150 mm diameter, with 25mm inner circular hole, for half and full bullnosed profiles. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 3000 - 6000.

00155105 **ADRIALUX HIGH-PROFILE DIAMOND WHEELS FOR BULLNOSED EDGES, WITH SMALL HOLE - M/G/AQ**

Adrialux synthetic bond snail lock diamond wheels, available in 100 mm, 130 mm and 150 mm diameter, with 25mm inner circular hole, for half or full bullnosed profiles. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 3000 - 6000.

00155703 **ADRIALUX DIAMOND WHEELS FOR BULLNOSED EDGES, WITH LARGE HOLE - M/G/AQ**

Adrialux synthetic bond snail lock diamond wheels, available in 150 mm diameter, with 70mm inner circular hole, for half and full bullnosed profiles. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 3000 - 6000.

00597501 **POLISHING WHEELS FOR BULLNOSED EDGES, WITH SMALL HOLE - G**

Snail lock polishing wheels, available in 100 mm, 130 mm and 150 mm diameter, for polishing half and full bullnosed profiles on granite.

00597651 **POLISHING WHEELS FOR BULLNOSED EDGES, WITH LARGE HOLE - G**

Snail lock polishing wheels 150 mm with 75 mm inner circular hole on full or half bullnosed profiles.

00596401 **5 EXTRA POLISHING WHEELS SMALL HOLE FOR BULLNOSED EDGES - M**

5 extra snail lock polishing wheels, 100 mm, 130 mm and 150 mm diameter, suited for polishing half and full bullnosed profiles on natural and agglomerate marble, stone and onyx.

00596651	5 EXTRA POLISHING WHEELS FOR BULLNOSED EDGES WITH LARGE HOLE - M
	5 extra snail lock polishing wheels 150 mm diameter with inner circular hole 75 mm on full or half bullnosed profiles.
00598106	GENERAL PURPOSE MAGNESITE POLISHING WHEELS WITH GROOVES FOR STRAIGHT AND FULL BULLNOSED PROFILES - M/G/AQ
	Snail lock all-purpose magnesite polishing wheels 150 mm diameter with grooves on straight, full and half bullnosed profiles. Circular internal small hole 25 mm. Grit sizes 36 - 46 - 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200 - polish
00598006	POLYESTER SYNTHETIC POLISHING WHEELS (GENERAL PURPOSE) WITH GROOVES, FOR STRAIGHT AND BULLNOSED PROFILES - M/G/AQ
	General purpose snail lock synthetic polishing wheels mm 150 diameter with grooves on straight, full and half bullnosed profiles. Circular internal small hole 25 mm. Grit sizes 120 - 220 - 320 - 400 - 600 - 800 - 1200.
00146725	ADRIALUX GENERAL PURPOSE DIAMOND WHEELS WITH GROOVES, FOR STRAIGHT AND BULLNOSED EDGES - M/G/AQ
	Adrialux diamond general purpose polishing wheels diameter 130 for straight, bullnose and half bullnosed profiles. Internal small circular hole 20 mm. Grit sizes 40 - 60 - 80 - 120 - 150 - 200 - 300 - 400 - 600 - 800 - 1000 - 1200 - 1500 - 3000 - 6000.
00590201	SYNTHETIC POLYESTER CHAMFERING POLISHING WHEELS - M/G/AQ
	Chamfering synthetic wheels available in 100 mm and 130 mm diameter for creating bevels. Grit sizes 60 - 80 - 120 - 220 - 280 - 320 - 400 - 600 - 800 - 1000.
00165001	ADRIALUX CHAMFERING DIAMOND WHEELS - M/G/AQ
	Adrialux synthetic bond diamond wheels available in 130 mm diameter and various heights for creating bevels. Grit sizes 60 - 80 - 120 - 220 - 280 - 320 - 400 - 600 - 800 - 1000.
001510030	ALUMINIUM BACK-UP SUPPORTS WITH THREAD FOR USE ON EDGE POLISHING MACHINES
	Aluminium back-up supports with right or left snail lock, available in 130 mm or 150 mm diameter, with threaded connection, designed to hold edge honing abrasives.
01510050	ALUMINIUM/RUBBER BACK-UP SUPPORTS WITH THREAD FOR USE ON EDGE POLISHING MACHINES
	Back-up supports made of aluminium and rubber, with right or left snail lock, available in 100 mm or 130 mm diameter, with threaded connection, designed to hold abrasives for edge polishing machines.
01510045	ALUMINIUM FLAT BACK-UP SUPPORTS FOR USE ON EDGE POLISHING MACHINES
	Aluminium flat back-up supports with right or left snail lock, available in 130 mm diameter designed to hold edge honing abrasives.

METAL DIAMOND DISCS

FOR MANUAL APPLICATIONS

03535210

03535005

03535150

03535505

03535515

03535650

03535210 METAL DIAMOND CUP WHEELS PLUS MA 14 - G/C

Plus metal diamond cup wheel, available in 100 mm and 125 mm diameter, with MA14 thread. These tools offer superior rough grinding thanks to very high cutting action. Grit sizes 1 - 2.

03535005 GOLDEN METAL DIAMOND CUP WHEELS PLUS MA 14 - G/C

Golden metal diamond cup wheel, 100 mm in diameter, with MA14 thread. These tools offer a compromise between good grinding efficiency and reasonable cost. Grit sizes 0 - 1 - 2.

03535150 GOLDEN CUP METAL DIAMOND WHEELS - G/C

Golden cup metal diamond cup wheel, available in 100 - 125 and 175 mm diameter, with thread connection. MA14 or 22.2 mm bore The presence on these tools of more holes allows a good disposal of the dust generated from roughing avoiding overheating of the tool especially during dry use. Grit size 0.

03535505 PLUS ELECTROPLATED CUP WHEELS- M

Plus electroplated cup wheel for fast rough grinding, available in mm 100 diameter with thread MA 14. Grit size 1.

03535515 PLUS STANDARD ELECTROPLATED CUP WHEELS - M

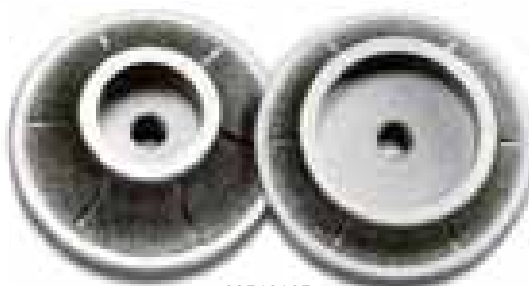

Standard electroplated aluminium cup wheel for rough grinding, available in 100 mm diameter with MA 14 thread and in 100 mm and 125 mm diameter with 22.2 mm hole. Grit size 1.

03535650 HIGH-SPEED ELECTROPLATED CUP WHEELS - M

Electroplated high-speed cup wheel for fast stock removal, available in 115 mm and 180 mm diameter, with 22.2 mm hole. Grit sizes 30 - 40 - 50 - 120.

03545085

03540172 METAL BOND SINTERED PROFILE WHEELS WITH MA14 THREAD AND ROTARY TOUCHER - G

Metal bond sintered profile wheel with MA14 thread, 100 mm in diameter, with various radius sizes, for half and full bullnosed profiles.

03540105 ELECTROPLATED PROFILE CUP WHEELS MA14 WITH FIXED TOUCHER - M

Electroplated profile wheels with fixed toucher, available in 100 mm diameter, with MA 14 thread, in various radius sizes, for half and full bullnosed profiles.

03540135 ELECTROPLATED PROFILE CUP WHEELS MA14 WITH ROTARY TOUCHER - M

Electroplated profile wheels with rotary toucher, available in 100 mm diameter, with MA 14 thread, in various radius sizes, for half and full bullnosed profiles.

03540010 VTS PROFILE WHEELS MA 14 WITH ROTARY TOUCHER - M

VTS profile wheel with rotary toucher, available in 100 mm diameter with MA 14 thread, for half and full bullnosed profiles. These tools offer a good compromise between good cutting performance and reasonable cost.

03540305 45° BEVEL ELECTROPLATED PROFILE CUP WHEELS - M

45° bevel electroplated profile cup wheel available in 95 mm diameter with thread MA 14. It offers the possibility, by replacing the toucher, to perform three thicknesses: mm 5-10 and 15.

03550255 METAL BOND SEGMENT GRINDING WHEELS MA14 - G

Metal bond 16-segment grinding wheel, 70 X 35 mm diameter with MA 14 thread.

03550205 ELECTROPLATED GRINDING WHEELS - M

Electroplated grinding wheel, available in mm 70 x 35 diameter with MA 14 thread.

03545030 ELECTROPLATED GRINDING WHEELS FOR DRIP TRAY MA14

Electroplated grinding wheel for drip tray MA14, diameter 63 mm width 6 mm and diameter mm 66 width 8 mm.

03545085 SINTERED GRINDING WHEELS FOR DRIP TRAY MA 14

Sintered grinding wheel for drip tray MA 14, diameter 70 mm width 8 mm.

00170460 "VETRIFIED" FLEXIBLE DIAMOND PADS FOR WET USE - M/G

Flexible vitrified diamond pads for wet use available in 100 mm diameter. Grit sizes 50 - 100 - 150.

00170370 ADRIALUX FLEXIBLE "R" DIAMOND PADS FOR DRY USE - M/G/AQ

Adrialux flexible velcro backed diamond pads for dry use, available in 100 mm diameter. Grit sizes 50 - 100 - 200 - 300 - 400 - 600 - 800 - 1500 - 3000 - lux white - lux black.

00170705 ADRIALUX FLEXIBLE DIAMOND PADS FOR DRY USE DRY FACE - G

Flexible velcro backed diamond pads for dry use on granite, available in 100 mm diameter. Grit sizes 50 - 100 - 200 - 400 - 800 - 1500 - 3000 - lux.

00170738 NINJA FLEXIBLE DIAMOND PADS FOR DRY USE - M/G/AQ

General purpose Ninja flexible diamond pads for dry use. Grit sizes 50 - 100 - 200 - 400 - 800 - 1500 - 3000.

001775315 ADRIALUX HOOKIT QUARTZ SUPERFLEXIBLE DIAMONDPADS FOR DRY USE - AQ

Adrialux super flexible velcro backed quartz diamond pads for dry use, available in 117 mm diameter. Grit sizes 60 - 120 - 220 - 400 - 800.

00170001 ADRIALUX FLEXIBLE DIAMOND PADS FOR WET USE - M/G

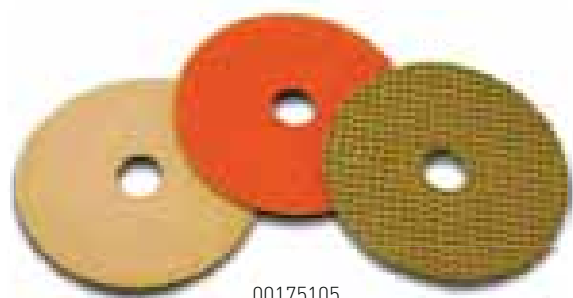

Adrialux velcro backed flexible diamond pads for wet use, available in 80 mm, 100 mm and 125 mm diameter. Grit sizes 40 - 60 - 120 - 200 - 300 - 400 - 600 - 800 - 1500 - 3000 - lux white - lux black.

00170552 ADRIALUX ULTRAFLEX DIAMOND PADS FOR DRY AND WET USE - M/G/AQ

Adrialux velcro backed flexible diamond pads for wet and dry use, available in 100 mm diameter. Grit sizes 1 - 2 - 3.

00175001 "ADRIALUX QUARTZ" FLEXIBLE DIAMOND PADS FOR WET / DRY USE - AQ

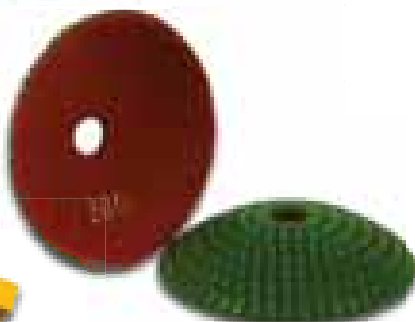

Adrialux quartz flexible velcro backed diamond pads for dry use, available in 100 mm diameter. Grit sizes 40 - 60 - 120 - 200 - 300 - 400 - 600 - 800 - 1500 - 3000 - lux white - lux black.

00183045

00183205

00183475

00175105 ADRIALUX QUARTZ FLEXIBLE DIAMOND PADS FOR WET USE - AQ

Adrialux quartz flexible velcro backed diamond pads for wet use, available in 100 mm diameter.
Grit sizes 1 - 2 - 3 - 4 - 5 - 6 - lux.

00170600 DIAFACE PADS Ø 100 MM

Diaface pads ø 100 mm velcro backed 3 holes, central hole ø 15 mm.

00170194 ADRIALUX CONVEX DIAMOND PADS FOR WET USE - M/G

Adrialux convex velcro backed diamondpads for wet use available only in 100 mm diameter.
Grit sizes 50 - 100 - 200 - 400 - 800 - 1500 - 3000 - lux white - lux black.

00183045 V30 SHAPED DIAMOND HAND PADS 100 X 55 MM - M/G

V30 shaped diamond hand pads for honing 3cm-thick bullnose edges. Available in size 100 x 55 mm .
Grit size 1 (60) green - 2 (120) black - 3 (200) red - 4 (400) yellow - 5 (500) white) 6 (1000) blue - 7 (8000) orange.

00183000 DIAMOND HAND PADS 90 X 55 MM - M/G

Diamond hand pads, available in size 90 x 55 mm. Grit size 1 (60) green - 2 (120) black - 3 (200) red - 4 (400) yellow - 5 (500) white) 6 (1000) blue - 7 (8000) orange.

00183205 DIAMOND BELTS - M/G

Diamond belts, available in the following sizes: 30 x30 mm - 50 x 42 mm - 75 x 38 - 100 x 38 mm.
Grit size 1 (60) green - 2 (120) black - 3 (200) red - 4 (400) yellow - 5 (500) white) 6 (1000) blue - 7 (8000) orange.

00183475 DIAMOND SHEETS - M/G

Diamond sheets available in various sizes and backings (Velcro QRS, adhesive and canvas) in diameter mm 120x70 - mm 230x280 - triangular mm 80x80. Grit sizes 1 (60) green - 2 (120) black - 3 (200) red - 4 (400) yellow - 5 (500) white) 6 (1000) blue - 7 (8000) orange.

SILICON CARBIDE ABRASIVES FOR MANUAL APPLICATIONS

FOR HONING AND POLISHING MARBLE, GRANITE AND QUARTZ AGGLOMERATES

01035002 SILICON CARBIDE SHEETS 230 x 280 MM - M

Silicon carbide sheets available in size 230 x 280 mm even with reinforced cloth. Normal grit type: 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400 - 500 - 600 - 800 - 1000 - 1200 Grit types with reinforced canvas: 36 - 40 - 50 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 240 - 280 - 320 - 400.

01005402 QRS VELCRO-BACKED FLEXIBLE SILICON CARBIDE DISCS - M

Flexible silicon carbide discs with QRS Velcro backing available in diameters mm 115 - 125 - 150 - 180. Grit sizes 40 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 320 - 400 - 500 - 600 - 800 - 1200.

01005202 FLEXIBLE SILICON CARBIDE DISCS WITH HOLE 22.2 MM - M/G

Flexible silicon carbide discs with 22.2 mm centre hole (flange fitting), available in diameters mm 115- 127 - 178. Grit sizes Ø 125: 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400. Grit sizes Ø 178: 16 - 24 - 36 - 50 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400.

01005102 FLEXIBLE PERFORATED DOUBLE LAYER SILICON CARBIDE DISCS WITH HOLE 22.2 MM - M/G

Flexible silicon carbide discs with hole 22.2 (flange fitting), available in diameters 115-127-178 with double layer to achieve a definitely longer duration compared to single-layer discs. Grit sizes 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400. Grit sizes Ø 178: 16 - 24 - 36 - 50 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400.

01010202 SEMI-RIGID SILICON CARBIDE DISCS WITH 22.2 MM HOLE - M/G

Semi-rigid silicon carbide discs with 22.2 mm centre hole (flange fitting), available in diameters mm 105 - 115 - 127 - 178. Grit sizes 16 - 24 - 36 - 50 - 60 - 80 - 120 - 180 - 220 - 280 - 320.

01025302 SILICON CARBIDE FLAP DISCS WITH 22.2 MM HOLE - M/G

Silicon carbide flap discs with 22.2 mm centre hole (flange fitting) available in 110 mm and 165 mm diameter. Grit sizes 40 - 60 - 120 - 220 - 320.

01010302 PLASTIZEC SILICON CARBIDE FLAP DISCS WITH 22.2 MM HOLE - M/G

Flat or domed silicon carbide rigid disks. They have to be fitted directly on the grinder without using the plastic support. Available diameters: 105 - 115 - 127 - 178. Grit sizes 16 - 24 - 36 - 50 - 60 - 80 - 120 - 180 - 220 - 280 - 320.

01020602 SILICON CARBIDE CONICAL CUP WHEELS, MIGNON TYPE - M/G

Silicon carbide conical cup wheels, Mignon type, 75/85 mm in diameter, available with various fitting options: 22.2 mm hole (flange fitting), MA14 screw and 5/8 screw. They can be used up to max 11,000 rpm. Grit sizes 16 - 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400 - 600.

01020432 SILICON CARBIDE CONICAL CUP WHEELS - M/G

Silicon carbide conical cup wheels, 110/90 mm in diameter, available with various fitting options: 22.2 mm hole (flange fitting), MA14 screw and 5/8 screw. They can be used up to max 8500 rpm. Grit sizes 16 - 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400 - 600.

01020202 SILICON CARBIDE CYLINDRICAL WHEELS - M/G

Silicon carbide cylindrical wheels, dimensions Ø 100 x 40 x 38 mm, available with MA14 thread and 5/8 screw. They can be used up to max 8,500 rpm. Grit sizes 16 - 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220 - 320 - 400.

01020632 SILICON CARBIDE CYLINDRICAL WHEELS, MIGNON TYPE - M/G

Silicon carbide cylindrical wheels, Mignon type, 80 mm in diameter, available with 22.2 mm hole (flange fitting) and MA14 thread. They can be used up to max 11,000 rpm. Grit sizes 16 - 24 - 36 - 60 - 80 - 120 - 150 - 180 - 220.

01025002 MOUNTED SILICON CARBIDE FLAP WHEELS - M/G

Silicon carbide flap wheels, 165 mm in diameter x 30 mm high. Grit sizes 40 - 60 - 80 - 100 - 120 - 150 - 180 - 220 - 320.

01030002 SILICON CARBIDE HAND RUBBING BRICKS

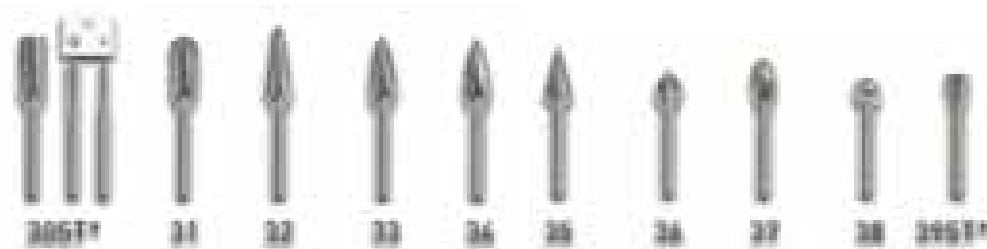

Available in size 200 x 50 x 25 and in following grits: 36 - 60 - 120 - 150 - 220 - 320.

01032002 PUMICE STONE IN BLOCKS

It is recommended for fine hand rubbing applications.

CUTTERS, FELTS AND ABRASIVE PASTES

03555205

01025132

01030102

04010003 HARD METAL BOND MOUNTED POINTS Ø 6 MM - M

Available in various shapes and sizes for the removal of marble irregularities with different shapes.

03555255 ELECTROPLATED DIAMOND POINTS MOUNTED ON SHAFT Ø 6 MM - M

Available in a variety of shapes and sizes, ideal for fine detailed work, mainly for sculpting.

03555400 SET OF ASSORTED ELECTROPLATED POINTS MOUNTED ON SHAFT - M

Set of assorted electroplated points mounted on a Ø 3 mm or Ø 6 mm shaft, available in various piece formats.

03555205 SINTERED DIAMOND POINTS MOUNTED ON SHAFT Ø 6 MM - M/G

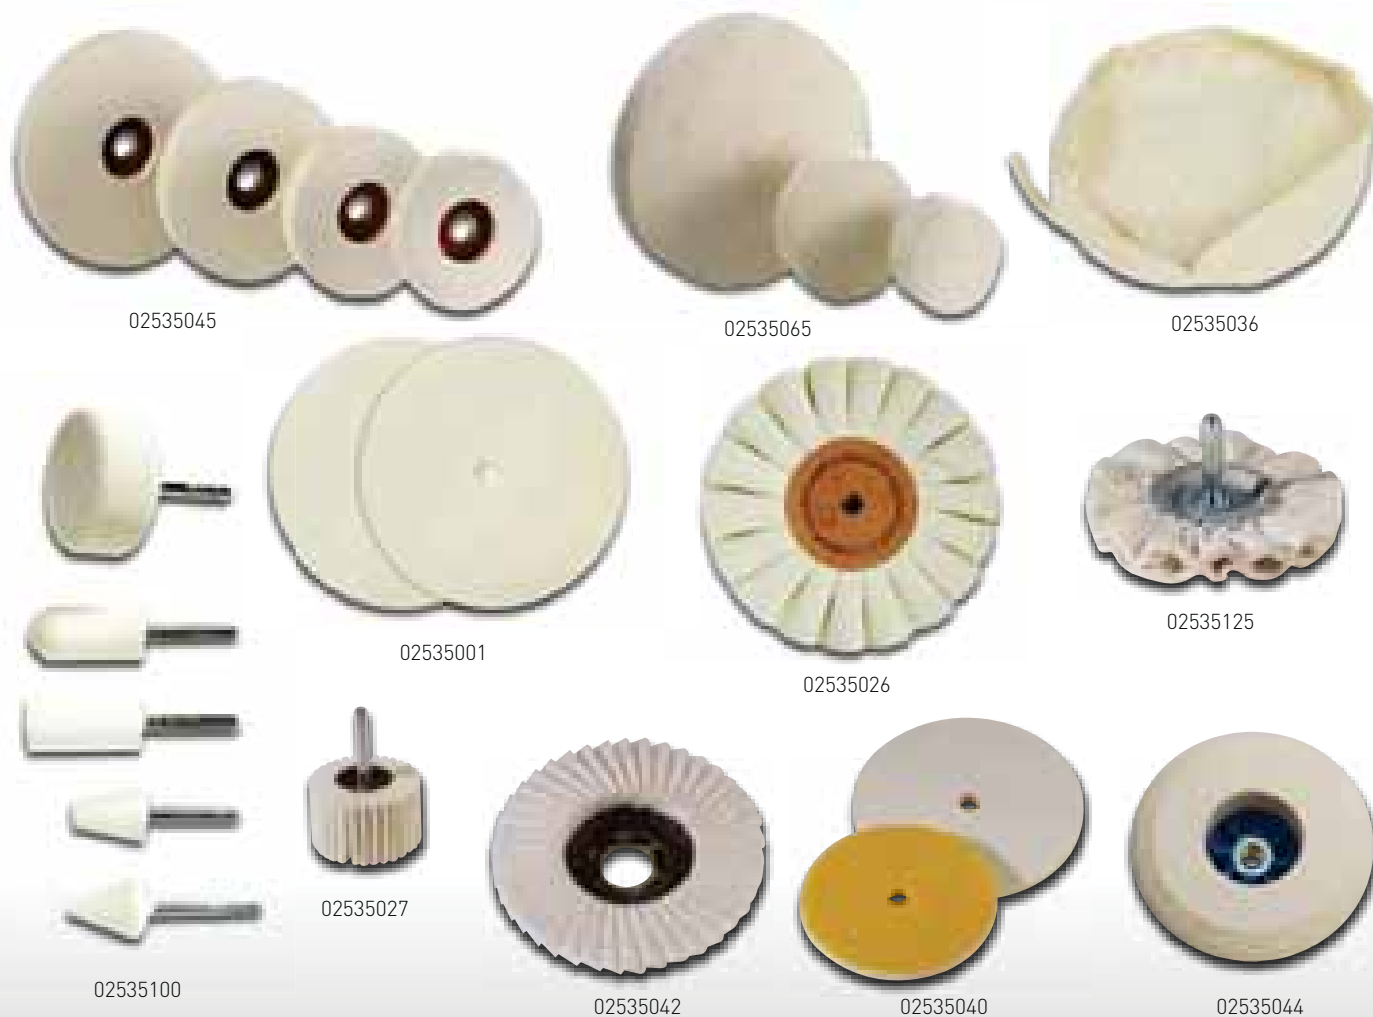

Available in various shapes and sizes for fine smoothing.

01025132 MOUNTED SILICON CARBIDE FLAP DISCS ON SHAFT Ø 6 MM

Available in different diameters and heights: 60 x h15 - 60 x h20 - 60 x h30 in the following grits: 40 - 60 - 80 - 120 - 180 - 240.

01030102 MOUNTED SILICON CARBIDE GRINDING DISCS ON SHAFT Ø 6 MM

Available in different diameters and shapes.

02535045 MERINO WOOL FELT DISCS

Merino wool felt wheels, suited for applying polishing pastes, waxes or powders in polishing process.
Available in Ø 115x15 - 125x20 - 150x20 - 180x20.

02535065 MERINO WOOL FELT DISCS, FULL TYPE

Merino wool felt wheels, full type, suited for applying polishing pastes, waxes or powders in the polishing process. They must be bonded to an appropriate backer; the advantage of these products is that, owing to their larger thickness (h 40), they last longer.
Available in Ø 100 - 130 - 200.

02535036 LAMB WOOL BUFFING PADS

Lamb wool buffing pads, designed for use with waxes in polishing process, available in diameters 115 - 125 - 178.
They can be mounted on the same backer pads of the silicon carbide discs.

02535001 CLOTH DISCS

Cloth discs for applying abrasive pastes or waxes using a straight grinder during polishing process.
External diameter 200 mm with internal hole 16 - 20 - 30 - 40 mm.

02535026 VENTILATED COTTON DISCS

Ventilated cotton discs for applying polishing pastes or waxes using a straight or angle grinder, for polishing. External diameter 200 mm with internal hole 20 mm.

02535125 MOUNTED CLOTH DISCS

Cloth discs mounted on a 6 mm diameter shaft, suited for applying abrasive pastes or waxes in polishing process.
External diameter 80 mm.

02535100 MOUNTED MERINO WOOL FELT POINTS

Merino wool felt points mounted on a 6 mm diameter shaft, suited for applying abrasive pastes or waxes during polishing process.
Available in various shapes and Ø.

02535027 MOUNTED FLAP FELTS

Flap felts mounted on a 6 mm diameter shaft, available in 50x30 mm diameter.

02535042 FLAP FELT DISCS

Flap felt discs Ø mm 115 with hole 22.2.

02535040 VELCRO FELT DISCS

Velcro felt discs available in Ø 115-125 mm.

02535044 FELT DISCS MA14

Felt discs MA14 available in Ø 125 mm.

045010005

04505350 STRAIGHT GRINDERS

Bosch and De Walt straight grinders for use with abrasive flap wheels Ø 165 mm and cloth discs Ø 200 mm.

04505309/320 MINI STRAIGHT GRINDERS

Bosch and Makita mini straight grinders for use with tools mounted on a 6 mm shaft (flap wheels, grinding wheels and merino wool felts).

04505030/115 ANGLE GRINDERS

Bosch and Makita angle grinders for use with cutting discs, flap discs Ø 165 mm, cup wheels, flexible and semi-rigid discs Ø 178 mm.

04505001/109 MINI ANGLE GRINDERS

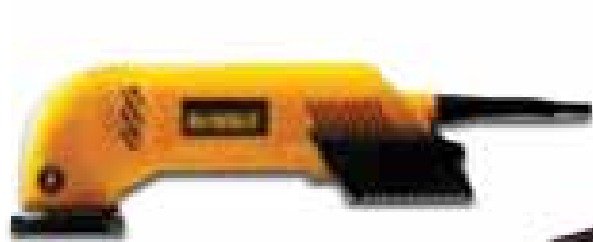

Bosch and Makita mini angle grinders for use with cutting discs and MIGNON diamond-bond cup wheels up to 125 mm in diameter (fixed-speed grinders), and with flexible and semi-rigid discs Ø 115 mm and 125 mm, flap discs 110 mm in Ø and ADRIALUX discs Ø 100 mm dry use (on adjustable speed grinders).

04505406 DRY GRINDERS / POLISHERS

Makita angle grinders for dry use with 110 mm Ø flap discs, 125 mm Ø flexible and semi-rigid discs 110 mm Ø ADRIALUX dry discs and merino wool felts.

045010005 FITTING FOR SUCTION

Fitting for suction of powder from (A model) and cutting (model B). Available for tools Ø 115-125 mm.

04505427 ELECTRICAL ORBITAL SANDER

De Walt orbital angular grinders for the application of triangular diamond slabs.

04505410 WET GRINDERS / POLISHERS

Wet grinders/polishers. Resin bond wet diamond discs and polishing wheel with small hole may be applied.

04510010 SEPARATOR TRANSFORMERS

Separator transformers for wet grinders/polishers without PRCD.

04505438 PNEUMATIC / WET ANGLE GRINDERS

Pneumatic angle grinder with application of resin bond wet diamond discs Ø 100 mm

04505442 PNEUMATIC ORBITAL POLISHER

Pneumatic orbital sander for use with diamond and silicon carbide sheets (size 120 x 70 mm).

04505470 PNEUMATIC GRINDERS

Pneumatic grinder for tools mounted on Ø 6 or 3 mm shaft.

ACCESSORIES

FOR MANUAL PROCESSING

01505055 RIGID BACK-UP SUPPORTS WITH VELCRO

Rigid QRS Velcro back-up supports available in various diameters (100 - 115 - 125 - 150 mm), with MA14 thread, designed to hold Velcro-backed flexible diamond discs and silicon carbide discs.

01505073 SEMI-RIGID BACK-UP SUPPORTS WITH VELCRO

Semi-rigid QRS Velcro back-up supports available in various diameters (100 - 115 - 125 - 150 - 180 mm), with MA14 thread, designed to hold Velcro-backed flexible diamond discs and silicon carbide discs.

01515095 ABS BACK-UP SUPPORTS

ABS back-up supports diameter 100 mm with MA14 thread, designed to hold adhesive flexible diamond discs.

01505100 ABS +PLASTAZOTE BACK-UP PLATES W/VELCRO

Snail lock QRS Velcro back-up plates made from ABS and Plastazote, available in various diameters (100 - 130 mm), designed to hold Velcro-backed diamond discs and silicon carbide discs.

01505115 ABS BACK-UP PLATES W/VELCRO

Snail lock QRS Velcro back-up plates made from ABS, available in various diameters (100 - 130 - 150 mm), designed to hold Velcro-backed diamond discs and silicon carbide discs.

01505200 ROLL OF VELCRO ADHESIVE TAPE, MALE

Velcro adhesive tape, male, available in size 210 mm x 1000 mm to be cut to any length according to needs to replace the worn-out Velcro on back-up pads.

01505170 PLASTOZOTE DISCS

Plastazote discs available in various diameters (100 - 125 mm) and in two thickness heights (2,5 e 10 mm), to be used in conjunction with the appropriate back-up pads or other supports.

01505205 VELCRO ADHESIVE DISCS, MALE

Velcro adhesive discs, male; these discs come in two diameters (100 - 125 mm) and are used to replace the worn-out Velcro on back-up pads.

01515010 PLASTIC BACK-UP SUPPORTS

Plastic back-up supports available in a variety of diameters (125 - 178 mm), with MA14 thread, with or without MA14 ring nut, designed to hold flexible and semi-rigid silicon carbide discs.

01515003 REINFORCED PLASTIC BACK-UP SUPPORTS

Reinforced plastic back-up supports available in various diameters (110-170 mm) with hole MA14 for flexible discs.

01515001 REINFORCED PLASTIC BACK-UP SUPPORTS FOR SEMI-RIGID DISKS

Reinforced plastic back-up supports available in various diameters (110-140 mm) with hole MA14 for semi-rigid discs.

01515070 IRON SHIMS

Iron shims suitable for use with Bosch or other makes of grinders with a similar attachment, in conjunction with flat ring nuts with short neck.

01515065 FLAT RING NUTS W/SHORT THREADED NECK

Flat ring nuts with MA14 short threaded neck for use on grinders (for rigid discs and cutting discs with 22.2 hole)

01515060 FLAT RING NUTS W/LONG THREADED NECK

Flat ring nuts with MA14 long threaded neck for use on grinders (for cup wheels and merino wool felts).

01515055 CONE-SHAPED RING NUTS W/SHORT THREADED NECK

Cone-shaped ring nuts with MA14 short threaded neck for use on grinders (holding flexible and semi-rigid carbide discs).

01515050 CONE-SHAPED RING NUTS W/LONG THREADED NECK

Cone-shaped ring nuts with MA14 long threaded neck for use on grinders (holding flexible and semi-rigid carbide discs).

01515075 FLANGES FOR FLAP DISCS

Flanges with 14 mm bore for use on grinders (for flap wheels).

01505038 CONVEX RUBBER BACK-UP SUPPORTS WITH VELCRO

Convex rubber back-up supports with QRS Velcro backing, available in 100 mm diameter, with MA14 thread, designed to hold Velcro-backed convex flexible diamond discs.

01505035 RUBBER BACK-UP SUPPORTS WITH VELCRO

Rubber back-up supports with QRS Velcro backing, available in a variety of diameters, with MA14 thread, designed to hold Velcro-backed flexible diamond discs and silicon carbide discs.

01505001 FOAM BACK-UP SUPPORTS WITH VELCRO

Foam + QRS Velcro back-up supports available in a variety of diameters, with MA14 thread, designed to hold Velcro-backed flexible diamond discs and silicon carbide discs.

01505049 RIGID ALUMINIUM BACK-UP SUPPORTS WITH VELCRO

Aluminium back-up supports with QRS Velcro backing, available in 100 mm diameter with MA14 thread, designed to hold Velcro-backed flexible diamond discs.

02001001 GOLDEN STEEL WIRE FRANKFURT BRUSHES - M

Frankfurt brushes with twisted golden steel wire filaments, available in plain or resin-coated style, suited for removing earth residues from natural marble, stone and onyx and thus prepare the surface for an antique, brushed or satin finish.

02005001 SILICON CARBIDE FRANKFURT BRUSHES - M

Silicon carbide wire Frankfurt brushes available plain or resin-coated.
Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02010005 FRANKFURT BRUSHES WITH STEEL AND SILICON CARBIDE WIRE FILAMENTS - M

Resin-coated Frankfurt brushes with mixed steel and silicon carbide wire filaments. The advantage offered by these brushes is that they will remove earth residues or leftover sharp edges while creating a brushed finish at the same time. Grit size 46.

02015003 ADRIAFLEX DIAMOND FRANKFURT BRUSHES - M

Adriaflex resin-coated Frankfurt brushes with diamond wire filaments, ideal for creating a "leather or silk texture" finishing.
Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 220 - 240 - 280 - 320 - 500 - 600 - 800 - 1000 - 1800.

02020125 FRANKFURT GOMMAFLEX BRUSHES - M

Frankfurt Gommafex brushes to enhance and give uniformity on the surfaces.
Grit sizes 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200.

00137020 ADRIALAP DIAMOND FRANKFURT BRICKS - M

Adrialap diamond Frankfurt bricks are just perfect to bring out the colour of a stone surface previously brushed with silicon carbide or Adriaflex diamond brushes. Grit sizes 120 - 180 - 220 - 320 - 400

02025011

02030000

02030100

02040005

02050005

02045125

02025011 TANGENTIAL STEEL BRUSHES MM 140 - G

Tangential steel brushes, 140 mm, with twisted golden steel wire filaments, either plain or resin-coated, designed to remove the softest or earth residue parts from granite, in order to improve the adhesion of epoxy systems during resin coating or consolidation processes.

02030000 SILICON CARBIDE TANGENTIAL BRUSHES MM 140 - G/AQ

Silicon carbide tangential brushes mm 140 available plain or resin-coated. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02030100 SILICON CARBIDE TANGENTIAL BRUSHES MM 140 HIGH DENSITY - G

Silicon carbide tangential brushes 140 mm high density silicon carbide brushes. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02040005 ADRIAFLEX DIAMOND TANGENTIAL SECTOR BRUSHES MM 140 - G/AQ

Adriaflex resin-coated brushes with diamond wire filaments mm 140, ideal for creating a "leather or silk texture" finish. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 220 - 240 - 280 - 320 - 500 - 600 - 800 - 1000 - 1800.

02050005 NYLON TANGENTIAL BRUSHES MM 140 - G

Nylon tangential brushes, 140 mm in size, designed to remove any excess chemicals used for the treatment of a granite surface (waxes, colour enhancers, etc.).

02045125 GOMMAFLEX BRUSHES MM140 -G/AQ

Gommaflex brushes mm 140 to enhance and give uniformity on the surfaces. Grit sizes 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200.

M = Marble / G = Granite / AQ = Quartz agglomerates / AM = Marble agglomerates / T = Terrace / P = Porphyry / C = Cement

Corrugated steel cup brush diameter mm 100.

02065015 FLARED TWISTED KNOT STEEL CUP BRUSH

Flared twisted knot steel cup brush diameter mm 95 with thread MA14

02065005 MOUNTED STEEL CUP BRUSH

Corrugated steel cup brush diameter mm 65 mounted on shaft diameter mm 6.

02073203 CIRCULAR BRUSHES MM 130 WITH SILICON CARBIDE FILAMENTS AND TERZAGO FITTING - G/AQ

Circular brushes 130 mm in diameter, with silicon carbide filaments, plain or resin-coated and Terzago fitting. Grit sizes 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02082253 ADRIAFLEX DIAMOND WIRE CIRCULAR BRUSHES MM 130 WITH TERZAGO FITTING - G/AQ

Adriaflex resin-coated diamond wire circular brushes, 130 mm in diameter, with Terzago fitting, designed to create a "leather or silk texture" finish. Grit sizes 36 - 46 - 60 - 80 - 120 - 180 - 220 - 240 - 280 - 320 - 500 - 600 - 800 - 1000 - 1800.

02079003 CIRCULAR BRUSHES MM 250 WITH SILICON CARBIDE FILAMENTS - M/G/AQ

Circular brushes 250 mm in diameter, with plain silicon carbide filaments, available with snail lock or QRS Velcro backing, for brushing, after flaming or sanding of the material. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02065050 CIRCULAR STEEL WIRE BRUSHES MM 100 - M/G

02070003 SILICON-CARBIDE FILAMENT CIRCULAR BRUSHES WITH COMBINED SNAIL LOCK AND MA14 THREAD - M/G/AQ

Circular brushes available in 100 mm, 130 mm and 150 mm diameter, with silicon carbide filaments, either plain or resin-coated, with combined snail lock and MA14 thread. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02073003 SILICON CARBIDE FILAMENT CIRCULAR BRUSHES WITH SNAIL LOCK DESIGN - M/G/AQ

Circular brushes available in 130 mm and 150 mm diameter, with silicon carbide filaments, either plain or resin-coated, suited for brushing and satin-finishing applications. Grit sizes 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000

02073303 CIRCULAR BRUSHES MM 130 WITH SILICON CARBIDE FILAMENTS 22.2 MM HOLE - M/G/AQ

Circular plain brushes 130 mm diameter with 22.2 mm hole with silicon carbide filaments suited for brushing and satin-finishing applications. Grit sizes 24 - 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

02082003 ADRIAFLEX DIAMOND WIRE CIRCULAR BRUSHES WITH COMBINED SNAIL LOCK AND MA14 THREAD - M/G/AQ

Adriaflex diamond wire circular brushes, available in 100 mm, 130 mm and 150 mm diameter, resin coated, with combined snail lock and MA14 thread, designed to create a "leather or silk texture" finish. Grit sizes 36 - 46 - 60 - 80 - 120 - 180 - 220 - 240 - 280 - 320 - 500 - 600 - 800 - 1000 - 1800.

00148005 GOMMAFLEX CIRCULAR BRUSHES - M/G/AQ

Circular gommflex brushes to spice up the color and even the material on polished surfaces. Grit sizes 60 - 80 - 120 - 220 - 320 - 400 - 600 - 800 - 1200.

02055001 PRISMATIC SEGMENT STEEL BRUSHES - M

Prismatic segment brushes with twisted golden steel wire filaments, either plain or resin-coated, suited for removing earth residues from natural marble, stone and onyx and thus prepare the surface for an antique, brushed or satin finish.

02060005 PRISMATIC SEGMENT SILICON CARBIDE BRUSHES - M

Prismatic segment brushes with silicon carbide filaments, either plain or resin-coated, for brushing of natural and agglomerate marble, stone and onyx. Grit sizes 36 - 46 - 60 - 80 - 120 - 180 - 240 - 320 - 500 - 800 - 1000.

SINTERED DIAMOND WIRE AND BLADES

FOR CUTTING ANY TYPE OF GRANITE, CONCRETE, BRICKS AND CLAY BRICKS

03575075

03575076

03501005

03529005

03515255

03575075 DIAMOND WIRE - G

Diamond wire available in different lengths, open or spliced (closed), with beads available in the following diameters: 6.3 mm - 7.3 mm - 8.8 mm - 10.5 mm.

03575076 DIAMOND WIRE BEADS - G

Sintered beads available in the following diameters: 6.3 mm - 7.3 mm - 8.8 mm - 10.5 mm.

03501005 SINTERED DIAMOND DISCS FOR GRANITE FOR CUTTERS AND BRIDGE SAWS - G

Available in different diameters with wide or narrow teeth and silent or plain core. The standard height of the segment is 10 mm. Upon request, it is also supplied with a 13 mm or 15 mm height.

03529005 DISC REVIVING BRICKS - M / G / AM / AQ

Blue colour to liven up all kinds of diamond discs. Perfect brown colour for sintered discs both for marble and granite.

03515255 CONDOR SINTERED DIAMOND DISCS - G/C

With flat grinding crown, they are perfect for cutting any type of granite, concrete, bricks and clay bricks. They are available in the following diameters and fittings: 105 mm: MA14 - 115 mm: H 22.2 and MA 14 - 125 mm: H 22.2 and MA 14 - 150 mm: H 22.2 and MA 14 - 180 mm: H 22.2 and MA 14 - 230 mm: H 22.2 - Flange bushing and MA 14.

03515005

03515105

03515608

03515403 BLACK SINTERED DIAMOND DISCS - G

With flat grinding crown, they are perfect for straight cutting any type of granite. They are available in the following diameters and fittings: 105 mm - 125 mm - 150 mm - 230 mm with fitting MA 14.

03515520 SUPERFAST SINTERED DIAMOND DISCS - G/P

With laser welded segments, they are ideal for straight cutting of hard granite and porphyry. They are available in the following diameters and fittings: 125 mm: MA 14 - 150 mm: MA 14 - 230 mm: H 22.2 - Flange bushing and MA 14.

03515005 SPRINTER SINTERED DIAMOND DISCS WITH DIAMOND PATTERN - G/C

With flat grinding crown, they are reinforced for a better quality with side diamond pattern for straight cutting any type of granite, concrete, bricks and clay bricks. They are available in the following diameters and fittings: 115 mm: H 22.2 and MA 14 - 125 mm: H 22.2 and MA 14 - 150 mm: H 22.2 and MA 14 - 180 mm: H 22.2 and MA 14 - 230 mm: flange bushing and MA 14 and H 22.2.

03515105 LIGHT BLUE SINTERED DIAMOND DISCS WITH DIAMOND PATTERN - G/C

With flat grinding crown, they are reinforced for a better quality with side diamond pattern for straight cutting any type of granite, concrete, bricks and clay bricks. They are available in the following diameters and fittings: 125 mm: MA 14 - 150 mm: MA 14 - 180 mm: MA 14 - 230 mm: flange bushing and MA 14.

03515608 CONCAVE SINTERED DIAMOND DISCS WITH DIAMOND PATTERN - G

Reinforced with internal and external side diamond patterns, they are perfect for cutting any type of granite. Available in the following diameters: 125 - 150 - 180 mm with H 22.2.

SINTERED AND ELECTROLYTIC DIAMOND WIRE AND BLADES FOR MARBLE

03575580

03575581

03520004

03505005

03520204

03575580 DIAMOND WIRE - M

Diamond wire available in different lengths, open or spliced (closed), with beads available in the following diameters: 6.3 mm - 7.3 mm - 8.8 mm - 10.5 mm.

03575581 DIAMOND WIRE BEADS - M

Sintered beads available in the following diameters: 6.3 mm - 7.3 mm - 8.8 mm - 10.5 mm.

03505005 SINTERED DIAMOND DISCS FOR MARBLE FOR CUTTERS AND BRIDGE SAWS - M

Available in different diameters with narrow teeth and silent or plain core. The standard height of the segment is 7 mm.

03520004 SIRIO ELECTROPLATED DIAMOND DISCS FOR MARBLE - M

In segments for straight dry cutting, they come in different diameters and fittings: 115 mm: MA 14 - 125 mm: MA 14 - 150 mm: MA 14 - 230 mm: MA 14 - H 22.2 and flange bushing.

03520204 ORION ELECTROPLATED DIAMOND DISCS FOR MARBLE WITH DIAMOND PATTERN - M

In segments for dry straight cutting, they are reinforced for better quality with lateral diamond pattern. They are available in different diameters and fittings: 115 - 125 - 150 - 180 - 230 mm with MA 14 and flange bushing.

03520105 VEGA ELECTROPLATED DIAMOND DISCS FOR MARBLE - M

With flat grinding crown for straight dry cutting, they come in different diameters and fittings: 115 mm: MA 14 and H 22.2 - 125 mm: MA 14 and H 22.2 - 230 mm: MA 14.

03520405 VANITY ELECTROPLATED REINFORCED DIAMOND DISCS FOR MARBLE - M

With flat grinding crown, they feature an additional side diamond pattern to optimise dry straight cutting. They are available in the following diameters and fittings: 125 - 150 - 180 - 230 mm with fitting Ma 14.

03520304 ELICA ELECTROPLATED DIAMOND DISCS FOR MARBLE WITH HELICAL DIAMOND PATTERN - M

In segments for dry straight cutting, they are reinforced for better quality with helical diamond pattern. They are available in the following diameters and fittings: 115 mm: MA 14 - 125 mm: MA 14 - 150 mm: MA 14 - 180 mm: MA 14.

03520430 DDE TRIS DIAMOND ELECTROPLATED DIAMOND DISCS FOR MARBLE CON TOTAL REINFORCEMENT - M

With flat grinding crown for straight dry cutting, they are reinforced along the side of the whole disc for a perfect quality. They are available in the following diameters and fittings: 115 mm: MA 14 - 125 mm: MA 14 - 150 mm: MA 14 - 230 mm: flange bushing.

03520225 ELECTROPLATED DIAMOND DISCS FOR MARBLE WITH 8 LONG DIAMOND PATTERNS - M

In segments for dry straight cutting, they are laterally reinforced to increase cutting speed, especially on thick surfaces. 230 mm diameter is available with flange bushing.

03520510 ELECTROPLATED CONCAVE DIAMOND DISCS WITH DIAMOND PATTERN - M

With flat grinding crown, they are perfect for dry curved cuts. They are available in the following diameters: 125 mm and 180 mm with hole 22.2.

BITS AND TOOLS

WITH HARD METAL CUTTING EDGES

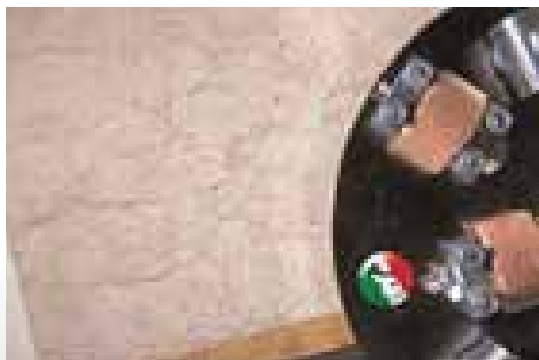

04005002	WIDEA DRILL BITS FOR PERCUSSION DRILL FOR GRANITE Widea drill bits for percussion drill for granite (gold color) available from Ø 2.5 mm to Ø 30 mm.
04005102	WIDEA DRILL BITS FOR ROTATING DRILL FOR GRANITE Widea drill bits for rotary drill for granite (blue color) available from Ø 2.5 mm to Ø 30 mm.
04005702	WIDEA SDS PLUS DRILL BITS FOR MARBLE AND GRANITE Widea SDS Plus drill bits for marble and granite from Ø 4 to Ø 30 mm with different lengths from 110 to 45 mm.
04005903	BITS FOR SCISSOR LIFT Tips for scissor lift type G (granite) and type M (marble).
04005402	BITS FOR ROTATING DRILL FOR MARBLE Chisels for rotating drill for marble (red color) available from Ø 2.5 mm to Ø 30 mm.
04015003	CHAMFERING FIRMER CHISELS FOR MARBLE AND GRANITE Chamfering firmer chisels for marble and granite with pyramidal tip from Ø 4 mm to Ø 12 mm.
04015103	CHAMFERING FIRMER CHISELS FOR MARBLE AND GRANITE FOR PNEUMATIC DRILL Chamfering firmer chisels for marble and granite for pneumatic hammer with cylindrical fitting Ø 12.5 mm Available from Ø 4 mm up to Ø 10 mm.
04020003	CHISELS FOR MARBLE AND GRANITE BY HAND Chisels for marble and granite by hand from 3 mm to 30 mm.
04020203	CHISELS FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER Chisels for marble and granite for pneumatic hammer with reduced cylindrical fitting Ø 7 mm Available from 3 mm up to 12 mm.
04020303	CHISELS FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER Chisels for marble and granite for pneumatic hammer with cylindrical fitting 12,5 mm Available from 4 mm up to 30 mm.
04025003	HAND TOPPING BITS FOR MARBLE AND GRANITE Hand topping bits for marble and granite from 20 mm to 50 mm.
04030003	TOOTHED CHISEL FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER Tooth chisel for pneumatic hammer for marble and granite with reduced fitting from 7 mm, available in one size in 2-3-4-5-6 teeth.
04030103	TOOTHED CHISEL FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER Tooth chisel for pneumatic hammer for marble and granite with cylindrical fitting 12,5 mm, available from 10 to 30 mm with 2-3-4-5-6 teeth.

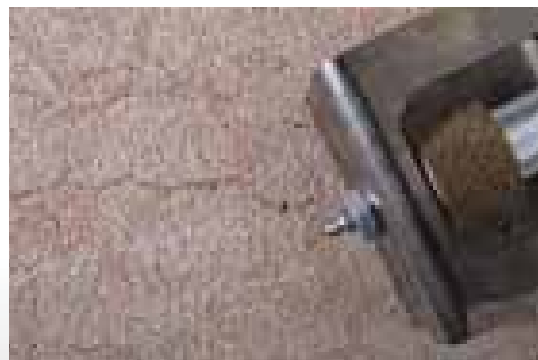

04035003	SINGLE-PIECE SQUARE BUSH HAMMERS FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER
	Square bush hammers for pneumatic hammer for marble and granite with cylindrical fitting Ø 12,5 mm, from 10x10 mm to 30x30 mm. From 4 to 25 teeth with long or short shank.
04035203	CYLINDRICAL BUSH HAMMERS FOR MARBLE AND GRANITE FOR PNEUMATIC HAMMER
	Cylindrical bush hammers for pneumatic hammer for marble and granite with cylindrical fitting Ø 12.5 mm Available in various diameters from 4 to 25 teeth with short and long shank.
04045010	STEEL BUSH HAMMERS FOR MARBLE FOR PNEUMATIC HAMMER
	Steel bush hammers for pneumatic hammer for marble with cylindrical fitting Ø 12.5 mm available in rectangular shape mm 25x15.
04045110	STEEL CHISELS FOR MARBLE FOR PNEUMATIC HAMMER
	Steel chisels for pneumatic hammers for marble 20 mm with cylindrical fitting Ø 12.5 mm.
04045155	STEEL HAND CHISELS FOR MARBLE
	Steel hand chisels for marble 20 mm.
04045210	STEEL CHAMFERING FIRMER CHISELS FOR MARBLE FOR PNEUMATIC HAMMER
	Steel chamfering firmers chisels for pneumatic hammer for marble with connection Ø 12.5 mm.
04045250	STEEL HAND CHAMPERING FIRMER CHISELS FOR MARBLE
	Steel chamfering firmers chisels for marble.
04045310	STEEL HAND SCRAPERS FOR MARBLE
	Steel hand scrapers for marble with lengths mm 150-180-250-300-350.
04045403	DOUBLE HEADED BUSH HAMMER FOR MARBLE AND GRANITE
	Double-headed bush hammer with steel plugs mm 35x35 for marble and granite available in various grits.
04505710	HAMMERS
	Hammers available in E-A-V-U-T-S types.
04510030	SPECIAL OIL
	Special oil designed for pneumatic systems.
04510036	THREAD
	Threaded fitting for hammers.
04510032	BRASS FAUCET
	Brass tap with ribbing slots for hammers.

SANDING, SCRATCHING FOR MARBLE AND GRANITE

SANDING

04050551

04050983

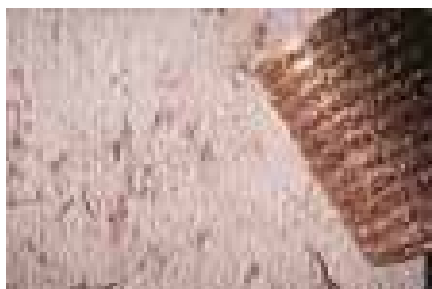

04050551 **SANDING PLATE**

Sanding plate for the implementation of the polished edge. Available in diameter 300 - 450 and 600 (other sizes also upon request). Possibility to change the type of process highlighting or decreasing sanding possibility.

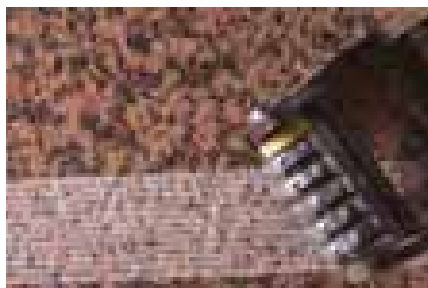

04050983 **FRANK ROLL ROLLER**

Frank roll roller for marble and granite on automatic machines with the possibility to perform different types of working: sanding (see photo), bush-hammering and trimming, changing the roller in the sector.

SCRATCHING

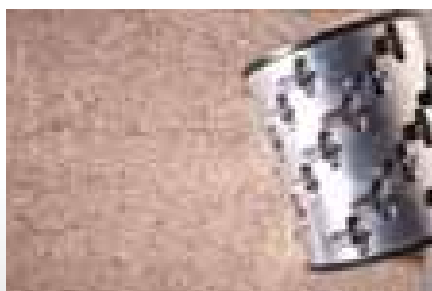

04050821

04050575

04050803

04050858

04050859

04050821 **SCRATCHING ROLLER FOR MANUAL GRINDER**

Scratching roller for manual grinder for marble available in 3 different finishes: large - medium - fine in the following diameter: mm 140x115.

04050803 **SCRATCHING ROLLER FOR MANUAL GRINDER FOR MARBLE**

Scratching roller for manual grinder for marble available in 3 different finishes: large - medium - fine in the following diameter: mm 80x50 with MA14 thread.

04050858 **SCRATCHING ROLLER FOR FLEXIBLE SHAFT**

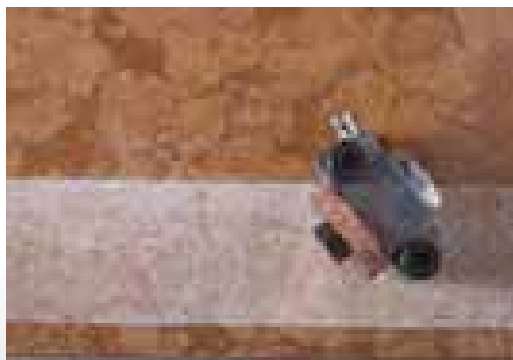

Scratching roller for flexible shaft for marble with triangular inserts, available in: irregular scratching with pitch 2.5 or 5 mm Roller diameter mm 115x105.

04050575 **SCRATCHING ROLLER FOR GRANITE**

Scratching roller for granite on swinging tools on manual grinder for nonslip feature on granite from 8 to 15 cm. Possibility to change the width of the scratching.

04050859 **SCRATCHING ROLLER FOR MANUAL GRINDER FOR GRANITE**

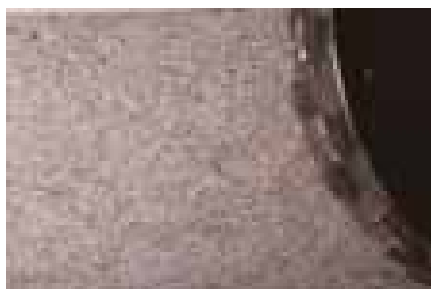

Scratching roller for manual grinder for granite and quartz conglomerate in diameter mm 115x105 with the possibility to change the width of the scratching from 2.5 to 5 mm (or multiples of 2.5 mm).

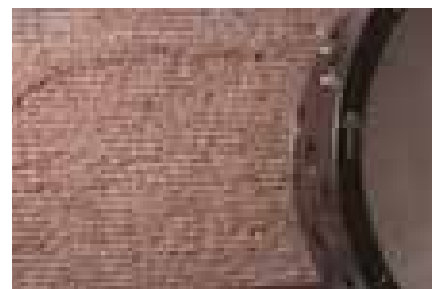

04050676

04050676 ROTARY BUSH HAMMERING WITH GRINDER

Rotary bush hammering with grinder for marble and granite (changing the rollers) with the possibility to make non-slip strips from 3 cm to 15 cm. Possibility to vary the type of bush hammering: large, medium and fine

04050873

04050872

04050850

03515270 + 04050783

04050873 SCRATCHING ROLLER FOR BRIDGE SAWS

Scratching rollers for bridge saw for granite or quartz conglomerate with 300 mm diameter with variable widths from 100 or 200 mm with the possibility to change the width of the scratch from 2.5 to 5 mm (or multiples of 2.5 mm) with 50 - 60 mm entry hole (or upon request).

04050872 SCRATCHING ROLLER FOR BRIDGE SAWS

Scratching roller for bridge saw for marble with 300 mm diameter with variable widths from 100 or 200 mm with the possibility to change the width of the scratch from 2.5 to 5 mm (or multiples of 2.5 mm) with 50-60 mm entry hole (or upon request).

04050850 SCRATCHING ROLLER FOR GRINDER

Scratching roller for grinder for marble with triangular inserts, available in: irregular scratching with pitch 2.5 or 5 mm Roller diameter mm 80x115. Assembly possible even on manual grinder.

03515270 CUTTING DISCS KIT

04050783 Kit 10 cutting discs for implementation of antislip features on marble or granite (replacing the discs). Possibility to vary the distance of the incision with suitable spacers adjusting the cutting depth. To be mounted on special manual grinders.

ROTARY TRIMMING AND BUSH-HAMMERING FOR MARBLE AND GRANITE

ROTARY TRIMMING

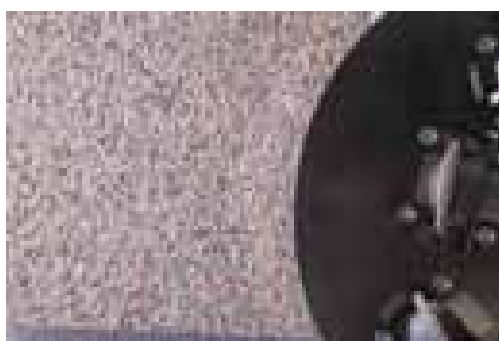

04050563

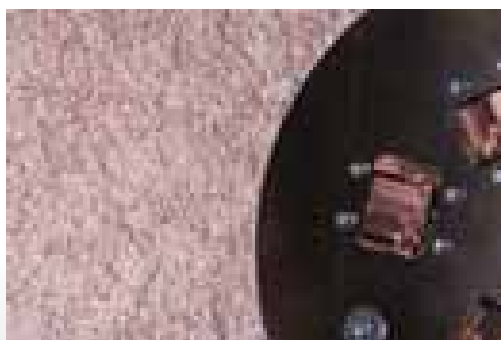

04050563 ROTARY TRIMMING PLATE FOR MARBLE

Rotary trimming plate for marble for automatic machines available in diameters: 280 - 450 - 600 mm (other diameters upon request). Possibility to modify the working depth.

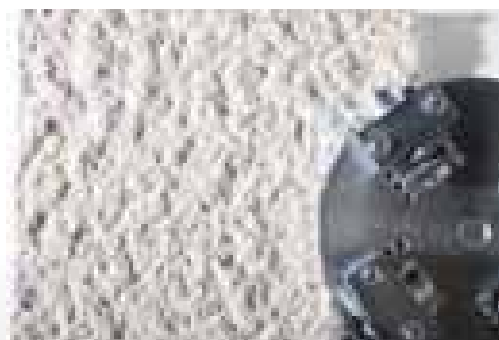

BUSH HAMMERING

04050641

04050503

04050029

04050641 PLATE FOR BUSH HAMMERING FOR AUTOMATIC MACHINES FOR GRANITE

Bush hammering plate for automatic machines for granite, available in diameters 300 - 450 and 600 mm (other sizes on request). Possibility to change the type of work highlighting or reducing the bush hammering according to the number of the tips.

04050503 PLATE FOR BUSH HAMMERING FOR AUTOMATIC MACHINES FOR MARBLE

Bush hammering plate for automatic machines for marble, available in diameters 300 - 450 and 600 mm (other sizes on request). Possibility to change the type of work by changing the number of tips of the roller (from 4 to 20 tips).

04050029 PLATE FOR BUSH HAMMERING FOR AUTOMATIC MACHINES FOR MARBLE

Bush hammering plate for automatic machines for marble, available in diameters 100 and 150 mm. Possibility to vary the type of work highlighting or reducing the bush hammering according to the number of the tips.

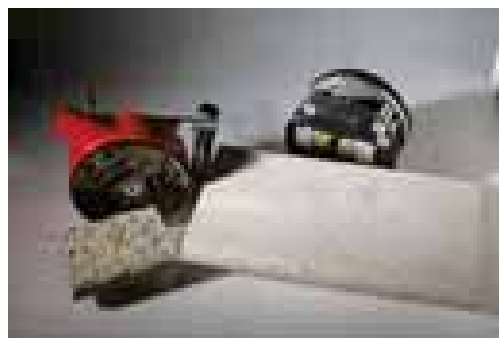

04050846

04050846 ROLLER FOR MANUAL GRINDER

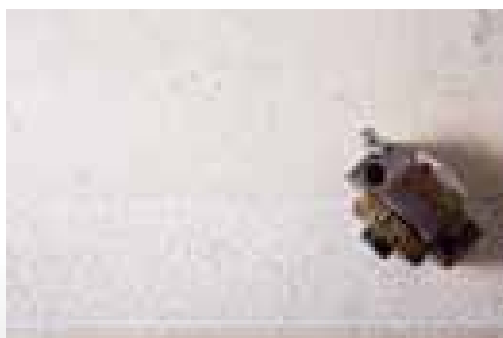

Roller for manual grinder for marble available in 105 mm diameter with MA14 hole.

04050109

04050542 + 04050530

04050668

04055006

04050109 ROTARY BUSH HAMMERING WITH MANUAL GRINDER FOR MARBLE

Rotary bush hammering with manual grinder for marble and granite (changing the rollers) with the possibility to make non-slip strips from 3 cm to 15 cm. Possibility to vary the type of bush hammering: large, medium and fine

04050542 ROTARY BUSH HAMMERING WITH MANUAL GRINDER FOR MARBLE AND GRANITE

04050530 Rotary bush hammering with manual grinder for marble and granite to create nonslip bands (or small surfaces) with micro bush hammering effect. Working width size from 5 to 15 cm. Satellite for marble bush hammering non-slip strips.

04050668 MANUAL AND AUTOMATIC ROTARY BUSH HAMMERING

Manual and automatic rotary bush hammering for marble and granite to achieve any measure of bush hammered bullnose profile. In manual use, it is available in diameter 110 mm, in automatic 130 or 150 mm diameter. Satellite for marble bush hammering antislip strips.

04055006 FLAMING KIT

Flaming kits with possibility to mount 50 - 100 - 150 mm combs.

BI-COMPONENT POLYESTER MASTICS FOR BONDING

03001001

03010001

03001105

03010065

03001001 COLOURED LIQUID POLYESTER MASTIC FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics for marble, stone and onyx in various colours (straw yellow, dark straw yellow, white, black, red) and packs of l 1 - l 4 - l 17.

03010001 COLOURED SOLID POLYESTER MASTICS FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics for marble, stone and onyx in various colours (straw yellow, dark straw yellow, white, black, red) and packs of l 0,750 - l 1 - l 4 - l 17.

03001105 TRANSPARENT LIQUID POLYESTER MASTICS FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics for marble, stone and onyx available in packs of l 1 - l 4 - l 17.

03010065 TRANSPARENT SOLID POLYESTER MASTICS FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics for marble, stone and onyx available in packs of l 0,750 - l 1 - l 4 - l 17.

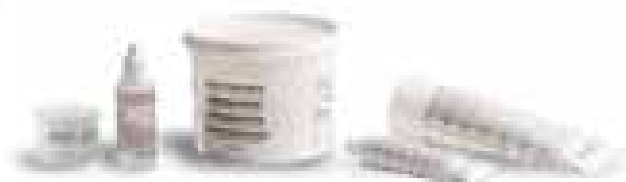

03001160

03010100

03010201

03040001

03065001

03070001

03001160 HIGH TRANSPARENT (WL) LIQUID POLYESTER MASTICS FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics available in packs of l 1 - l 4 - l 17 - l 200. They are ideal for marble and light coloured onyx.

03010100 HIGH TRANSPARENT (WS) SOLID POLYESTER MASTICS FOR GLUING APPLICATIONS - M

Bi-component fast setting mastics available in packs of l 1 - l 4 - l 17. They are ideal for marble and light coloured onyx.

03010201 COLOURED SOLID POLYESTER MASTICS FOR QUARTZ AGGLOMERATES - M

Bi-component fast setting mastics available in packs of l 1 - l 4.

03040001 PASTE AND LIQUID HARDENERS FOR POLYESTER MASTICS - M/AQ

Catalyst pastes (benzoyl peroxide) available in different packages: gr 35 - ml 180 - gr 500 - kg 5. Liquid catalysts (MEK) available in: ml 25 - kg 1 - kg 5.

03065001 COLOURING PASTES IN TUBES FOR POLYESTER MASTICS

Coloring pastes in tubes for polyester mastics available in the following colours: white, black, red, green, brown, blue and yellow.

03070001 OXIDES AND COLOURING POWDERS

Oxides and colouring powders 1 kg - 5 kg - 25 kg. Colors available: white, black, red, green, brown, blue and yellow.

BI-COMPONENT POLYESTER MASTICS

WITH “FAST” CATALISYS FOR PLASTERING

03025001

03030001

08020150

03025001 FAST COLOURED LIQUID POLYESTER MASTICS - M/AM

“Fast” liquid bi-component polyester based mastics used for filling natural and agglomerate marble, stone and onyx surfaces. Available in different colours (Botticino - dark Botticino -white - red - black) and packagings: l 4 - l 17 - l 180.

03030001 FAST SEMI SOLID COLOURED POLYESTER MASTICS - M/AM

“Fast” semi solid bi-component polyester based mastics used for filling natural and agglomerate marble, stone and onyx surfaces. Available in different colours (Botticino - dark Botticino - travertine - white - red - black) and packagings: l 4 - l 17 - l 120.

08020150 CONSOLIDATING RESIN WATER BASE FOR TRAVERTINE

Consolidating resin for cementitious grouting for travertine. Available in packs of kg 5 - kg 25.

03035025

03035050

03535001

03035040

05045055

05045005

05045105

03035025 **ARTIC UV-CURED LIQUID TRANSPARENT POLYESTER MASTICS - M/AM**

"Artic" one-component transparent liquid polyester mastics, UV-cured (UV catalysis oven), for in-line filling of natural and agglomerate marble, stone and onyx surfaces. Available in the following packaging: kg 18 - kg 180.

03035050 **ARTIC UV-CURED SOLID TRANSPARENT POLYESTER MASTICS - M/AM**

"Artic" one-component transparent solid polyester mastics, UV-cured (UV catalysis oven), for in-line filling of natural and agglomerate marble, stone and onyx surfaces. Available in different formulations and bulk density: 18 kg.

03535001 **ARTIC UV-CURED LIQUID COLOURED POLYESTER MASTICS - M/AM**

"Artic" one-component polyester mastics, UV-cured (UV catalysis oven), for in-line filling of natural and agglomerate marble, stone and onyx surfaces. Available in beige colour in the following packs: 25 kg - 250 kg.

03035040 **ARTIC UV-CURED SOLID COLOURED POLYESTER MASTICS - M/AM**

"Artic" one-component polyester mastics, UV-cured (UV catalysis oven), for in-line filling of natural and agglomerate marble, stone and onyx surfaces. Available in beige colour in packaging: 25 kg.

05045055 **SCRAPER WITH PLASTIC HANDLE**

Scraper with plastic handle 50 mm to 120 mm.

05045005 **SCRAPER WITH WOODEN HANDLE**

Scraper with wooden handle 50 mm to 120 mm.

05045105 **ANTI-SLIP RUBBER HANDLE SCRAPER**

Scraper with non-slip rubber handle from 50 mm to 120 mm.

TWO-COMPONENT EPOXY MASTICS FOR BONDING

03045006

03045010

03045007

03045004

03045006 03045006 TRANSPARENT SOLID EPOXY MASTIC FOR GLUING APPLICATIONS - G/M/AM/AQ

SUPERGEL epoxy based transparent solid bi-component mastics (2:1 mix ratio) available in 1.5 kg pack, used for gluing granite, marble, stone and onyx.

03045010 COLOURED SOLID EPOXY MASTICS FOR GLUING APPLICATIONS - G/M/AM/AQ

Epoxy based solid coloured bi-component mastics (2:1 or 1:1 mix ratio) available in 1.5 kg and 3 kg packs, used for gluing granite, marble, stone and onyx.

03045007 COLOURED LIQUID EPOXY MASTICS FOR GLUING APPLICATIONS - G/M/AM/AQ

Epoxy based coloured liquid bi-component mastics (2:1 mix ratio) available in 1.5 kg pack, used for gluing granite, marble, stone and onyx.

03045004 TRANSPARENT LIQUID EPOXY MASTICS FOR GLUING APPLICATIONS - G/M/AM/AQ

Epoxy based transparent liquid bi-component mastics (2:1 mix ratio) available in 1.5 kg pack, used for gluing granite, marble, stone and onyx.

03045020

03020094

03020075

03065085

03045020 EPOXY BASED SEMI SOLID MASTICS IN CARTRIDGE-G/M/AM/AQ

Two-component epoxy based semisolid mastics in cartridge: available in 50 ml cartridge for gluing granite, marble, stone and onyx.

03020094 EVOXY SOLID COLOURED MASTICS - G/M/AM/AQ

Evoxy coloured solid mastics: bi-component fast setting high adhesion (for gluing granite, marble, stone and onyx). Available in packs of l 0,750 - l 1 - l 4.

03020075 EVOXY SOLID TRANSPARENT MASTICS - G/M/AM/AQ

Evoxy solid transparent mastics: bi-component fast setting high adhesion (for gluing granite, marble, stone and onyx). Available in packs of l 0,750 - l 1 - l 4.

03065085 COLOURING PASTES IN TUBES FOR EPOXY MASTICS

Colouring pastes in tubes for epoxy mastics available in different colors.

EPOXY SYSTEMS

FOR NET REINFORCING AND RESIN TREATING FOR MARBLE, ONYX AND GRANITE

03055195

03055511

03055001

03055195 EPOXY SYSTEM FOR NET REINFORCING - M/G

Systems with ADRIAPOX epoxy based resin and hardener products in different percentages of use: 25% - 30% - 35% - 37% - 50%. Transparent or coloured (beige) products are available in different sizes: kg 1 - kg 5 - kg 20 - kg 200 - kg 1000. They are used on marble, stone, onyx and granite.

03055511 EPOXY SYSTEM, WHICH DOES NOT ALTER THE COLOUR OF THE MATERIAL-M/G

Systems with ADRIAPOX epoxy based resin and hardener products in different percentages of use: 25% - 30%. They are transparent products with high reactivity and medium viscosity. They come in different packages: kg 1 - kg 5 - kg 20 - kg 200 - kg 1000. They are used on marble, stone, onyx and granite.

03055001 EPOXY SYSTEMS FOR CONSOLIDATION AND NET REINFORCING - M/G

Systems with ADRIAPOX epoxy based resin and hardener products in different percentages of use: 25% - 30% - 33% - 35% - 37% - 50%. They are transparent products available in many application possibilities for optimising machining quality, type of system and cost of resin coating. They can be used for resin coating as well. They are available in the following packaging: kg 1 - kg 5 - kg 20 - kg 200 - kg 1000.

030552279

03055016

03060006

05015205

030552279 ADRIAPOX GEL EPOXY SYSTEMS - M/G

ADRIAPOX GEL transparent high viscosity epoxy systems to restore large holes on marble and granite. It is made up of resin ADRIAPOX and catalysts in various percentages of use: 25% - 30%. They are available in the following packaging: kg 20 - kg 100.

03055016 BLACK EPOXY SYSTEM - G

Black colouring epoxy systems: bi-component or three-component epoxy systems (with PRIMER) to darken black granite. They are available in the following packaging: kg 1 - kg 5 - kg 20 - kg 200 - kg 1000.

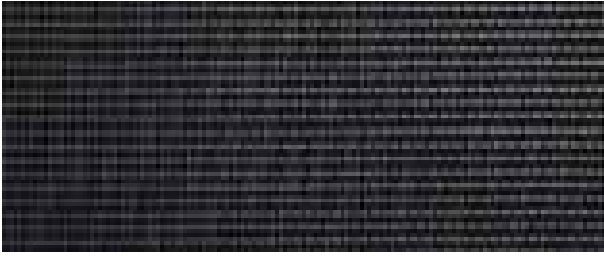

03060006 WET EPOXY SYSTEMS - M/G

ADRIAPOX WET epoxy systems and hardener products in different percentages of use: 30% - 40%. They are designed for use on slightly moist surfaces where traditional systems suffer from adhesion problems. They are available in the following packaging: kg 1 - kg 5 - kg 20 - kg 200 - kg 1000.

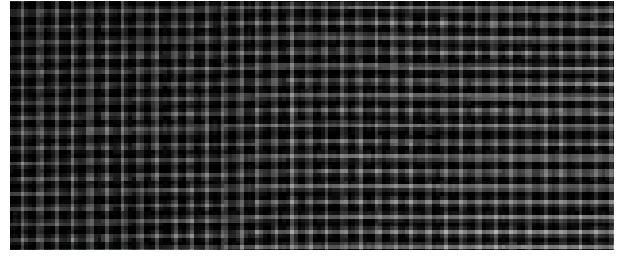

05015205 GRADUATED JUGS

Graduated jugs with spout for measurement and mixing of resins and hardeners, available in l 1 - l 2 - l 3 - l 5.

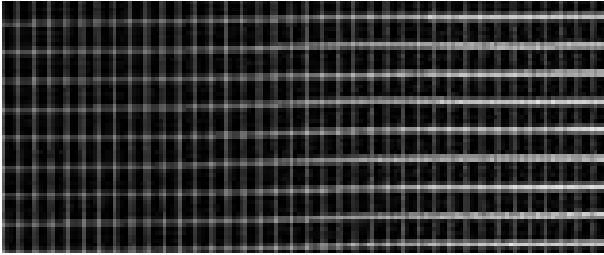

REINFORCEMENT AND CONSOLIDATION SYSTEMS

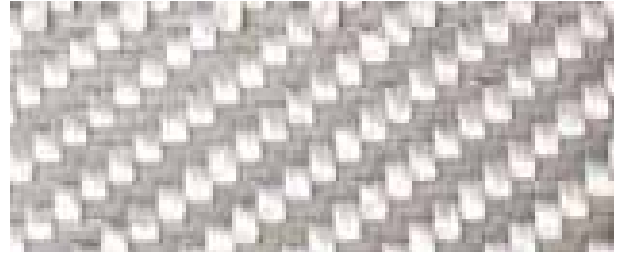

03075204

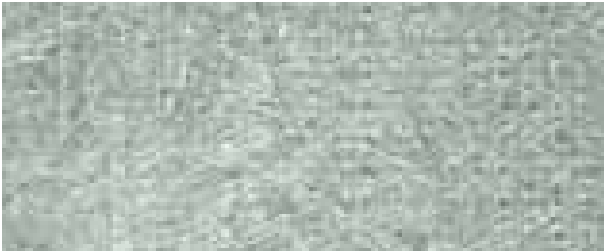

03075104

03075304

0308000

03080120

03075510

03075600

03075204 FIBREGLASS CLOTH 55 GR/M2 - M

Fibreglass cloth for slab reinforcement, 55 grams/sqm, all purpose. Available in a variety of heights, from minimum 70 cm up to maximum 200 cm.

03075104 FIBREGLASS CLOTH 78 GR/M2 - M/G

Fibreglass cloth for slab reinforcement, 78 grams/sqm, all purpose. Available in a variety of heights, from minimum 70 cm up to maximum 200 cm.

03075304 FIBREGLASS CLOTH 90 GR/M2 - M/G

Fibreglass cloth for slab reinforcement, 90 grams/sqm, all purpose. Available in a variety of heights, from minimum 70 cm to a maximum of 200 cm. Thanks to an excellent imbibition (wetting) of resins and the type of anchoring of the net's texture, it allows greater seal capacity both on marble, onyx and granite of all types.

0308000 FIBREGLASS WOVEN ROVING 500 GR/SMQ - M/G

Fibreglass woven roving for the reinforcement and consolidation of natural marble (including marble blocks). It is also suited for bonding slabs together. Available in a variety of heights, from minimum 120 cm up to maximum 220 cm.

03080120 BONDED FIBREGLASS WOVEN ROVING 300/800 GR/SMQ - M

Fibreglass woven roving stitch-bonded to a MAT with 5 cm chopped strands. Thanks to its increased thickness, it provides excellent holding strength as block reinforcement. Available in 120 mm height only.

03075510 CONTAINING GLASS FABRIC FOR SLAB BACK SUPPORT

Containing glass fabric for slab back support for rein coating and grouting applications on flat surfaces, recommended to avoid the leak of resin and mastics.

03075600 GLASS AND NET COMBINED FABRIC

Glass and net combined fabric for a double function of containing slab back during resin coating, grouting applications and reinforcement of the material itself.

03050105 EPOXY MASTIC TIX 2000 FOR IMPREGNATING WOVEN ROVINGS

Viscous system formulated for impregnating the reinforcement woven roving for use on stone blocks, available in a variety of packages. Part A (TIX 2000): kg 20 - kg 180. Part B (BLOCK): 20 kg. Ideal for marble, onyx and granite.

03050001 CONSOLIDANT EPOXY MASTIC

Consolidant epoxy mastic: to be used as an additional strengthening agent, after the first stage, TIX 2000 + hardener BLOCK. Available in different packages. Part A: 18 kg. Part B: 20 kg.

03050145 IMPREGNATING ROLLER FOR IMPREGNATING THE WOVEN ROVING

Roller, essential to remove the air bubbles, generated during the mixing process of the epoxy system to improve the mechanical properties of polymeric reinforcement.

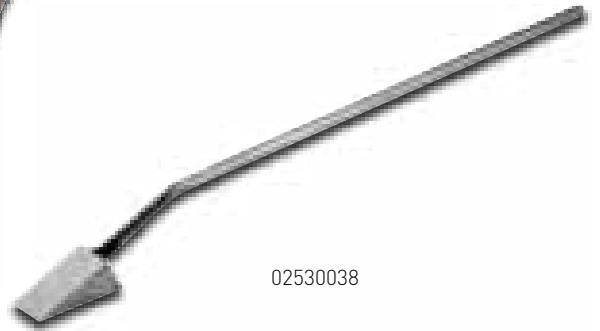

08070031 SMOOTHING TROWEL

Smoothing trowel 28x12 available with various types of handle and/or American model.

Electric plasterer

02530041 RESISTANCE FOR ELECTRIC PLASTERER

Resistance for electric plasterer.

02530001 ABRASIVE PASTE - M

White or other colours polishing paste in bars for polishing of natural and agglomerate marble, stone and onyx to be applied with merino wool felt wheels or cloth discs.

02530020 ABRASIVE PASTE - G

Grey polishing paste in bars for polishing of granite and agglomerate quartz to be applied with merino wool felt wheels or cloth discs.

08050950

08050950 KEDISIL N700

Neutral curing low module professional silicone. Formulated for the implementation of expansion joints and perimeter joints, and applications on marble, granite, natural stone in general, ceramics, concrete, wood, metals, glass, fire-resistant materials, hard plastics (PC, PMMA). Suitable for exterior and interior applications. ATTENTION: for very porous stones, contact the technical service of the company before commencing the work.

02515100

02515030 DEFENDER

Water and oil repellent stain-proof impregnating protector for marble and granite with natural effect. Particularly suited for porcelain stoneware. Solvent based formulation, suitable for indoor and outdoor applications. Suitable for use when you need a high level of protection without altering the natural colour of the stone. Available in the following packaging: 1 l - 5 l - 20 l.

02515005 PROTECTION

Water and oil repellent stain-proof impregnating protector for marble, granite, unglazed tiles with natural effect. It provides excellent protection even after a few hours. This product may result in a slight colour enhancing effect when applied to highly absorbing materials. Solvent based formulation, recommended for interior use. Available in the following packaging: 1 l - 5 l - 20 l.

02520005 GURDIAN

Impregnating stain protection water-oil repellent with natural effect for marble, granite, cementitious substrate, cotto, exposed bricks. Water-based formula, low odour emission, for indoor and outdoor applications. It does not contain synthetic solvents or other elements harmful to the environment and has no hazardous labelling. Available in the following packaging: 1 l - 5 l - 20 l.

02515060 SAFESTONE

Impregnating stain protection water-oil repellent agent with natural effect ideal for very absorbent materials such as limestone, natural stone, terracotta, exposed bricks, agglomerates and cementitious elements. Available in the following packaging: 1 l - 5 l - 20 l.

02515120 EPOQUE

Colour enhancing, water and oil repellent impregnating protector for absorbent marble, granite and agglomerates. Ideal for sandblasted, brushed, bush-hammered and flamed surfaces. Also suitable for shiny surfaces. Solvent based formulation designed specifically for exterior use, thanks to high colour fastness to light and excellent resistance to atmospheric agents. This product needs to be applied in several coats, depending on absorption of the treated materials. Available in the following packaging: 1 l - 5 l - 20 l.

02515100 RENOVA

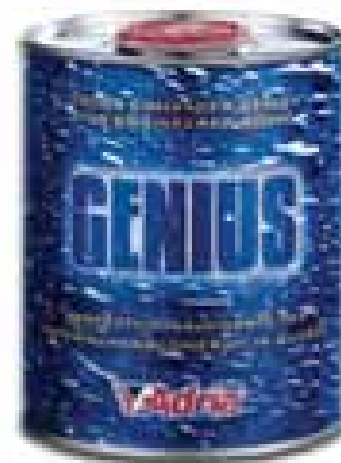

Colour enhancing, water and oil repellent impregnating protector for marble and granite, ideal for sanded, brushed, bush-hammered, flamed and antique finishes. Solvent based formulation, recommended for interior use. Available in the following packaging: 1 l - 5 l - 20 l.

02515173

02515175 ULTRACOVER

Colour enhancing impregnating protector formulated specifically for granite. Ideal to cover small veins and micro-fissures. Once applied, the product must remain on the granite for about 12 hours. Then, it is removed with brushes. Available in packs of l 1 - l 5 - l 20.

02515117 SAFARI GREEN

Colour enhancing "Solvent free" impregnating protector, suitable for very absorbent materials, particularly suitable for smooth, brushed or satin finish surfaces. It can be used both outdoors and indoors. Available in packs of l 1 - l 5 - l 20.

02515140 GENIUS

Colour enhancer for recomposed quartz materials or, in general, for low absorbing agglomerates. Available in packs of l 1 - l 5 - l 20.

02515160 MIRAGE

Impregnating, protective and colour enhancing for highly absorbent materials or rough surfaces for indoor use. Available in packs of l 1 - l 5.

02510015 KRISSPAY SOLID

Solvent based wax designed to increase gloss of treated surfaces. Suitable for marble and granite. Available in packs of l 1 - l 5.

02515173 SELF-POLISHING ENHANCER

Self-polishing enhancer developed specifically for granite. This product forms a very thin, highly transparent film, which enhances the natural colour of all granite surfaces, even if not perfectly honed. Pack 1 l.

02510001 WAX PLUS

Solvent-based, it is recommended mainly for waxing on automatic lines to increase the polishing degree of materials. Suitable for dark granite, it can be supplied in black. It is available in packs of l 5 - l 20.

02505030 COLOURING POWDERS FOR SOLVENT BASED WAXES

They are available in different colors in packs of 500 cc.

02503010 NYLON BRUSHES FOR WAXING MACHINES

They are designed to uniformly apply waxes and protectors on automatic machines. Available in diameter Ø 400 mm with rigid PVC or wooden backing with nylon bristles embedded in it.

02503039 TAMPICO VEGETAL FIBRE BRUSHES FOR WAXING MACHINES

Tampico vegetal fibre brushes. It is recommended on the last head of the waxing machine as the softness of the fibres allows a perfect and homogeneous application of wax and protectors.

02503004 NYLON/STEEL TAMPICO VEGETAL FIBRE BRUSHES

Nylon/steel tampico vegetal fibre brushes. They are recommended for cleaning residues after flaming.

05515712 SYNTHETIC FIBRE FELTS FOR WAXING MACHINES

They are recommended to uniformly apply waxes and protectors on an automatic machine, they are usually used on the last two heads. They are available in diameters Ø 406 mm and Ø 432 mm in different types.

05515080 SPONGE WITH VELLCRO FOR WAXING MACHINES

Synthetic fibre felts for waxing machines to uniformly apply waxes and protectors on automatic machines: they are usually used on the last two heads.

05510015

05510025

05510026

05510010 SANDER - POLISHER FOR MARBLE-MODEL PANDA

Technical specifications: abrasive holder disc Ø 260 mm. Tank capacity: about l 16 Single phase motor 3 HP 220V 240V 110V 50/60 Hz. Approximate weight of machine about 90 kg Dimensions cm 88x45x73.

05510015 SANDER - POLISHER FOR MARBLE - MODEL LUPESSA

Technical specifications: abrasive holder disc Ø 280 mm. Tank capacity about l 25. Single phase motor 3 HP 220 V - 240 V - 110 V 50/60HZ. Approximate machine weight 105 kg. Dimensions cm 95x51x76.

05510025 SANDER - POLISHER FOR MARBLE - MODEL GAZZELLA

Technical specifications: abrasive holder disc Ø 330 mm. Tank capacity l about 35. Three-phase electric motor 5.5 HP - 220/380 V - 50/60HZ - 240/415 V 50HZ - Built-in inverter. Approximate weight of unloaded machine about 140 kg Dimensions cm 121x60x83.

05510026 TWO-HEAD SANDER - POLISHER FOR MARBLE - MODEL GAZZELLA

This sander has been designed and built for working on large surfaces with maximum performance and, consequently, lower cost. The two plates allow the action on the floor of a double abrasive surface compared to the traditional one-head system, while still maintaining excellent handling characteristics, professional features and reliability. Technical data: three-phase motor 7.5 HP 220V 380V 240V 415V 50/60Hz. Tank capacity: l about 65 Plates: Ø 330 mm. Weight: Kg 220. Dimensions cm 118x68x88.

05510030

05510031

05510005

05510030 SANDER - POLISHER FOR GRANITE AND MARBLE - MODEL PANTERA

Technical specifications: abrasive holder disc Ø 330 mm. Planetary Ø 330 mm. Tank capacity about l 35 Three-phase electric motor 7.5 HP 220/380V - 240/415V 50/60 Hz. Weight about 245 kg Dimensions: cm125x67x87.

05510031 TWO-HEAD SANDER - POLISHER FOR GRANITE AND MARBLE - MODEL PANTERA

The double spindle generates, compared to the previous model, a doubling of the hourly yield, while maintaining its excellent handling characteristics, professional features and reliability. Technical data: three-phase motor 10 HP 220V -380V -240V -415V 50/60 Hz. Planetary gears Ø 330 mm. Plates Ø 330 mm. Tank capacity about l 65 Weight: about Kg 310 Dimensions: cm 118x68x88.

05510005 SANDER - POLISHER FOR MARBLE - MODEL CICALA

Technical specifications: Electrically driven with single-phase motor 220V 240V 110V 50/60Hz 2 HP abrasive holder disc Ø mm 190. Tank capacity: l about 6 Weight about 40 kg Dimensions: 48x68x28.

SINGLE-BRUSHING MACHINE

05515002

05515002 SINGLE-BRUSHING MACHINE TOR43

TOR43 is a newly developed machine particularly suitable for heavy duty jobs. It adopts a rotary orbital motion, which boosts work yield compared to a traditional single-brushing machine.

Exploiting the high frequency oscillation principle, it achieves an excellent stability and handling capacity although having a total weight of 65 Kg (excluding accessories). When working with water TOR43 ensures considerable savings since water is constantly being held within the area of the disc thanks to the orbital motion and is not lost. Furthermore, the peculiarity of the orbital movement makes it very easy to use the TOR43 machine for any operator, reducing training time and eliminating the need for particular physical efforts. The low power consumption enables it to be used also in combination with a vacuum cleaner, both powered by the power of a standard home network.

00145651

00145651 DIAMOND ADRIALUX FOR SINGLE BRUSH TOR 43

QRS (velcro) Adrialux diamond wheels available in diameters 75-100 mm for recovery of granite and marble surfaces with velcro fitting. Grits available 36 - 60 120 - 220 - 320 - 400 - 800 - 1500 - 3000 - 5000.

05515005 SINGLE-BRUSHING MACHINE 17" - 154 RPM

Version having 430 mm diameter with uprated engine for particularly demanding and burdensome work. Very solid induction motor for a long duration and great performance. Double protection against unintentional operation. Satellite and planetary gearboxes, assuring the best performance as to power, torque, duration and quiet operation. State-of-the-art handle, the result of a perfect combination of great strength, ergonomics, safety and innovative design.

KEDIL FIXING SYSTEMS

08040410

08040270

08040265

08040195

08040260

08040410 ADHESION

High-performance, white epoxy-polyurethane adhesive. It is fit for general purpose use and is particularly suitable for the laying of natural stone and marble sensitive to humidity. It adheres to any surface. It is not suitable for bathtubs or swimming pools. Available in packs of kg 5 and kg 10. **It is suitable for the bonding of net reinforced marble or granite.**

08040270 SUPER 24

Bi-component, quick-setting and drying cementitious adhesive for professional use. Suitable for fixing natural stones, marbles and granites, resin- and cement-based composite marbles, ceramic tiles and stoneware. It can be used on indoor and outdoor floors and walls. Owing to its high deformability, it is the ideal adhesive for use with underfloor heating as well as on façades (double-spreading application method), in swimming pools and on top of existing coverings. Especially suitable for high-traffic areas. It is perfect for fixing recomposed and dimensionally stable stones. Classified as a C2FTE S2 adhesive (according to EN 12004 and EN 12002). **It is suitable for the bonding of net reinforced marble or granite.**

08040265 SUPER 120

Bi-component cementitious adhesive with a high polymer content, medium-fast hydration, no vertical slip and extended open time. Suitable for laying resin and cement bonded reconstituted stone, large size ceramic and porcelain stoneware tiles, overlapping marble and granite, in pools, in high-traffic and high-stress areas. Adhesive compliant with classification C2 TE S2 (according to EN 12004 and EN 12002). **It is suitable for the bonding of net reinforced marble or granite.**

08040195 KEDY S2 MONO

Single-component cement adhesive, with a high polymer content, thixotropic, with no vertical slipping and with prolonged opening time, grey or white in colour, for professional use. Suitable for laying, including thick-bed method, of natural stone, marble, resin, mosaics of all kinds, ceramic and porcelain stoneware, as overlay, in swimming pools, on heating screeds subject to heavy traffic, on façades, on flexible bases due to its high elasticity, laying of thin porcelain stoneware also for sizes 150x300cm. **It is suitable for the bonding of net reinforced marble or granite.**

08040260 FAST MAXI

Quick-setting, vertical creep resistant, thixotropic cementitious adhesive with high polymer content, for professional use. Suitable for medium- to large-sized ceramic and porcelain tiles and for stone materials (as long as moisture-stable). Ideal where the premises must be ready for use in a short time. It can be used in high-traffic, high stress areas. FAST MAXI can be used on indoor and outdoor floors and walls, on cement plasters and screeds, on top of existing floors, on heating screeds and concrete structures (provided they have been adequately cured). Especially suitable for laying large-sized tiles, including on not perfectly flat substrates (up to 15 mm adhesive thickness). It can also be applied to anhydrite screeds and gypsum board walls previously primed with APPREX G.

08040250

08040300

08040290

08040190

08040250 FAST

Quick-setting, vertical creep resistant, thixotropic cementitious adhesive with high polymer content, for professional use. Suitable for use with medium and large size ceramic and porcelain stoneware tiles and stone materials. Ideal where the premises must be ready for use in a short time. It can be used in high-traffic, high stress areas. FAST can be used on indoor and outdoor floors and walls, on cement plasters and screeds, on top of existing floors, on heating screeds and concrete structures (as long as completely cured). It can also be applied to anhydrite screeds and gypsum board walls previously primed with APPREX G. Classified as a C2FTE (according to EN 12004).

08040300 KEDILSTONE MAXI

Single-component cementitious adhesive, high polymeric content, in white powder, quick setting and hydration and no vertical slip, for professional use. Suitable for laying ceramic and porcelain stoneware, also large in size, natural stone, in overlay, in swimming pools, in places subject to heavy traffic and high stresses. Adhesive complies with classification C2FTE S1 (according to EN 12004) and (EN 12002) adhesive thickness up to 15 mm.

08040290 KEDILSTONE

Extra-white, quick-drying, no vertical slip, thixotropic cementitious adhesive with a high polymer content for professional use. Suitable for fixing natural stone and all types of porcelain and ceramic tiles. Suitable for indoor and outdoor floors and walls, on cement plasters and screeds, on top of existing flooring, in high-traffic areas, in swimming pools, cellular concrete blocks (indoor only), on concrete structures (provided they have been adequately cured) as well as on substrates waterproofed with KEDILASTIC or ISOLFLEX. It can also be applied to anhydrite screeds, gypsum walls and plasterboard panels, that have been primed with APPREX G. Adhesive classified as a C2FTE (according to EN 12004).

08040190 KEDYTOP

Thixotropic, vertical creep resistant cementitious adhesive with excellent workability properties, extended open time and high polymer content, for professional use. Available in white or grey. Suitable for fixing (including by thick-bed method) porcelain tiles and all types of ceramic and stone materials, as long as moisture-stable. Especially suitable for laying large-sized tiles, including on not perfectly flat substrates (up to 15 mm adhesive thickness). KEDYTOP can be applied on indoor and outdoor floors and walls, on cement plasters and screeds, on top of existing floors, on heating screeds and cellular concrete blocks (interior use only), in high-traffic areas, in swimming pools, on concrete structures (completely cured), as well as on substrates waterproofed with KEDILASTIC or ISOLFLEX range. After specific priming with APPREX G, it can also be applied to anhydrite screeds, gypsum walls and plasterboard panels. Adhesive classified as a C2TE S1 (according to EN 12004 and EN 12002). KEDYTOP, used after laying PRIMERFLEX, is suitable for gluing on net reinforced marble and granite dithered.

KEDIL FIXING SYSTEMS

08040140

08040310

08050010

05035065

08040140 KEDIFLEX

Thixotropic, vertical creep resistant cementitious adhesive with extended open time and high polymer content, for professional use, available in white or grey. Suitable for fixing porcelain tiles and all types of ceramic and stone materials, as long as moisture stable. KEDIFLEX can be used on indoor and outdoor floors and walls, on cement plasters and screeds, on top of existing floors, on heating screeds and cellular concrete blocks (interior use only), in high-traffic areas, in swimming pools, on concrete structures (completely cured), as well as on substrates waterproofed with KEDILASTIC or ISOLFLEX range. After specific priming with APPREX G, it can also be applied to anhydrite screeds, gypsum walls and plasterboard panels. Adhesive classified as a C2TE (according to EN 12004).

08040310 KEDYMOS

Extra-white, thixotropic cementitious adhesive with extended open time, for professional use. Ideal for glass mosaics and all types of ceramic and stone mosaics. It can be used on indoor and outdoor floors and wall coverings, plaster and cement screed, in swimming pools. To fix mesh-mounted mosaics in swimming pools, dilute with ADIFLEX and water in 1:1 ratio. Adhesive classified as a C2TE (according to EN 12004).

08050010 SIGILCEM 0.4

Waterproof cementitious fine-grained high workability sealant. Suitable for 0 to 4 mm grouting of ceramic tiles of all types, including porcelain stoneware, natural stone and glass mosaics. Available in different colours, it has an excellent abrasion resistance (AR). SIGILCEM 0.4 is classified as CG2 (according to EN 13888). Naturally combats the growth of bacteria, mould and mildew. On exterior façades, in swimming pools, in places with high pedestrian traffic or where cleaning is performed with industrial means, in place of mixing water, the use of SIGILAX, elasticising synthetic latex is recommended, satisfying the requirements of class CG2 S1 (according to EN 13888 and EN 12002).

08050155 SIGILAX

SIGILCEM and SIGILCOLOR for indoor and outdoor applications requiring greater strength, firmness, flexibility, lower porosity and less absorption. Ideal for the grouting of high pedestrian and industrial traffic flooring and in swimming pools. It is recommended after further degreasing or polishing operations with polishing machines.

05035065 SCRAPER FUGALINDA

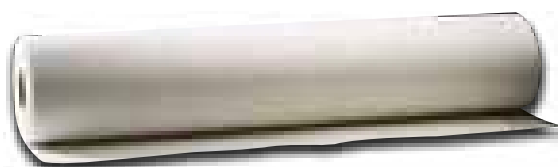

Fugalinda scraper for cleaning or removing cementitious interspaces.

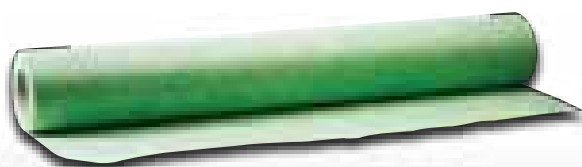

08050155

08030070

08030149

08030140

08030143

08030070 KEDILASTIC 1

One component, average flexibility waterproofing and anti-carbonation cementitious mortar for concrete, cementitious plasters and screeds. Suitable for use in swimming pools, tanks, balconies, terraces, bathrooms, showers. It forms a flexible membrane and can be applied to cementitious substrates or existing wall coverings providing they are clean and firmly anchored to the substrate. Apply two coats at a distance of 3-5 hours apart. To make the membrane more resistant to cracking of the substrate, embed a fibreglass mesh in the first coat. Protect from rain and wash-off for at least 48 hours after being applied. It can be overlaid with ceramic tiles after approximately 2-3 days. To be covered.

08030140 ISO TEX

Waterproof membrane, positioned under the layer of tiles, it waterproofs and protects the floor from breakage of the screed and from the migration of moisture. This is due to the two outer layers of polypropylene fabric with one inner layer of polyethylene.

08030149 TEX DESOLARIZZANTE

Sheeting that allows laying without grouting and expansion joints as it distributes the tensions between the parts

08030143 PRO STONE

Our post laying protective sheeting is ideal for the protection of natural stone as it is breathable and also highly resistant to the accidental dropping of heavy tools Cost reduction due to reuse Puncture-proof and high mechanical resistance Heat set, resulting in high abrasion resistance, less fibre fly and reusable.

05035260 FIBREGLASS PROFILE ROLL

Fibreglass profile roll mm 10x3 available in rolls of 50 m or 100 m for reinforcing kitchen countertops.

05040110 TOP QUALITY BLUE PAPER ROLL

Top quality reinforced blue paper roll 350 sheets.

05040105 PURE CELLULOSE PAPER ROLL

Pure cellulose paper roll 800 sheets.

05035290 STEEL WOOL

Fine (A) and coarse (B) steel wool.

05045255 DOUBLE RUBBER SQUEEGEE SCRAPER

Double rubber squeegee scraper type A or B cm 40 - 60 - 75.

05045305 SINGLE RUBBER SQUEEGEE SCRAPER

Single rubber squeegee scraper cm 40 - 60.

05025232 FAST COUPLING CLAMPS

Clamps with fast coupling with lengths from 20 cm up to 200 cm.

05025205 SCREW COUPLING CLAMPS

Clamps with screw coupling with lengths from 20 cm up to 200 cm.

05020005 ANTI-SLIP RUBBER FACING

Non-slip rubber full or perforated profile steps available in colors: black, grey, beige.

05030115 GALVANISED HINGES

Galvanised hinges available in 50-60-70-80 cm.

05030015 BLACK HINGES

Black hinges available in 50-60-70-80 cm.

05035071 RECTANGULAR STEEL BRUSHES

Rectangular steel brushes.

05035085 STEEL BRUSHES FOR FLOOR GRINDERS

Steel brushes for floor grinders.

05035078 BRASS WIRE BRUSHES

Brass wire brushes with plastic handle.

05035070 STEEL BRUSHES

Steel brushes with wooden handle.

05035145 SPONGE

Sponge for washing.
