## STAINLESS STEEL 304 & THERMOPLASTIC ABS

VRH × HOY

### Premium quality stainless steel 304

VRH products are made of high quality Stainless Steel grade 304, feel the touch of Stainless Steel surface, longer durability and high corrosion resistance which differ from general Chrome Coated Brass material.

### High Quality ABS plastic

Made of high quality ABS plastic, Strong, Durable without leak from cracked problem. (PN6 quality grade, Maximum pressure resistance upto 6 Bars.)

### Verified by Thailand Industrial Standard

Ensure your most confidence of using with Thailand Industrial Standard (TIS.1497-2548) for Strong, Durable and generate suitable water flow rate. (Operation system control by spring valve. PN6 quality grade, Maximum pressure resistance upto 6 Bars.)

### All spare parts are replaceable

Extend the product life with available spare parts for all parts. Spare parts are easy to replace. Easy reparation and low maintenance cost.

### Smooth touch and easy use

Enjoy the softness of water flow. Easy to use with smooth touch from innovative spring system. Our Rinsing Spray has passed the operation durability test for more than 500,000 times.

### Water Lock

Easily lift up the trigger to control water flow continually as you wish for more convenient cleanliness.

### Soft touch

Strong flow with soft touch. The new innovative filter designed for perfect flow regulation for your perfect wash.
