**FB Promo**, in Chelghoum Laid, has chosen **Gaspari Menotti multiwire** for its production plant which works with granite and marble

The Algerian company **FB Promo** is part of Benayache group, based in Chelghoum Laid, and is a dynamic and very active reality in the stone market, with a plant that allows them to process marble and granite thanks to various machines.

Recently, **FB Promo** has decided to expand the production department by relying on the GMW series multiwire produced by **Gaspari Menotti Technologies**.

In particular, the choice fell on the **GMW 2000** model, with a cutting width of 2 meters and capable of installing up to 71 wires with a diameter of 6.3 mm for cutting slabs with a minimum thickness of 20 mm.

It is a machine designed to provide **high performance** while preserving the life of the wire and guaranteeing an excellent quality of the surface of the slab, making polishing faster. The GMW multiwire machine is controlled by **latest generation electronics** and has been studied with particular attention to contain maintenance costs, which are among the lowest on the world market.

**Once again, demanding Customers turn to the excellence of the Gaspari Menotti brand for cutting-edge machines.**

A green banner with a white crescent moon logo on the left. The text 'Batimatec Expo' is in a white, stylized font. Below it, in white capital letters, is 'FROM 7 TO 11 MAY 2023 COME AND VISIT US AT OUR DEDICATED STAND: PAVILLON G1 | STAND 27'. At the bottom center is a white rounded rectangle containing the text 'MORE INFO >'.
