**Antonio Longarito Lda, in Portugal, focuses on Gaspari Menotti polishing line to obtain slabs of the best quality**

Antonio Longarito Lda company is a historic organization in the Portuguese granite processing market.

The company already has a GMW 1200 40 wire multiwire machine, produced by Gaspari Menotti and, recently, Mr. Longarito has decided to focus again on the Gaspari brand machines and add a **granite slab polishing line**, which includes automatic loading and unloading of the slabs, a 4-head waxing machine, a distributor for the application of anti-scratch material on the surface of the slabs as well as a **20-head Mirror G polishing machine**.

It is a machine that looks to the future, designed according to the criteria of “**Industry 4.0**”, with **latest generation technology** to ensure very high performance and equipped with control systems that allow you to monitor the crucial points of the machine to **reduce costs to a minimum of maintenance**.

Gaspari Menotti’s technology is always at the service of companies looking for machinery of absolute quality and reliability for working natural stone.
