PIETRA  
AUTENTICA

Nella storia, il marmo è stato il materiale principe per le costruzioni di prestigio, dai monumenti dell'antica Roma alle lussuose residenze orientali nel cuore di Costantinopoli.

Uomini di ogni tempo e cultura si sono cimentati nella difficile arte della lavorazione del marmo, scrivendo le pagine più belle della storia dell'arte e dell'architettura, lasciando in eredità un bagaglio di conoscenze tecniche che ha reso famosi i nostri artigiani in tutto il mondo.

Marmi Colombare, un'azienda che da oltre 30 anni si dedica con passione e costanza alla lavorazione del marmo, ha rinnovato le antiche tradizioni artigiane per adattare ad una moderna produzione industriale.

Oggi Marmi Colombare offre ai suoi clienti un'ampia gamma di materiali, nei formati e nelle finiture più richieste assicurando un'ottima qualità ed un'accurata selezione dei colori.

Un team di esperti accompagna il cliente nella scelta dei materiali e nello sviluppo del progetto, consigliando sempre per il meglio chi decide di affidarsi a Marmi Colombare per trovare il giusto equilibrio fra design e funzionalità.

**Marmi Colombare...naturalmente marmo.**

In history, marble has been the main material for prestigious building, starting with the monuments of ancient Rome, to the sumptuous residences in the heart of Constantinople.

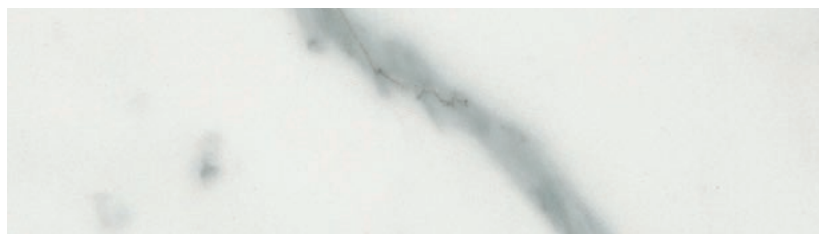

Men of every time and culture have improved themselves in the difficult art of marble workmanship, writing the most beautiful pages of the history of the art and architecture, leaving in inheritance a baggage of technical knowledge that has made famous artisans all over the world.

Marbles Colombare, a company with over 30 years experience, works with passion and consistency in the workmanship of marble, renewing artisan traditions to adapt with modern industrial production.

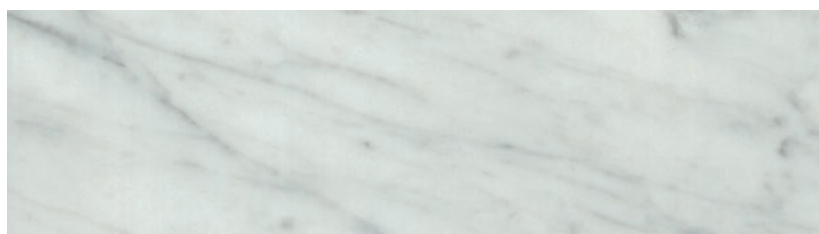

Today Marbles Colombare offers to its customers an ample range of materials, in the most popular sizes and assures a high-quality product and an excellent selection.

A team of experts accompanies the customer in his choice of the materials and in the development of the project, always recommending the best, in order to find the right balance between design and functionality.
